### INTRODUCTION.

The major part of young men in our country, are, to some extent, accountants; and if required to keep accounts at all, they should be able to do it in a manner inselligible to themselves and to others. While about every harmhof of cleancian is theroughly taught in our schools about the contract of the

Every business man should be entirely acquainted with the principles of Double-Entry, that he may classify and conduct his accounts in such a manner as will disclose to himself and to others, (if need be) the true state of his affairs. By Single-Entry, the merchant cannot trace out the changes through which his property has passed; and though he may, by nicking up the odds and ends, ascertain what his property is worth, he is, nevertheless, unable to tell on what branches of his business, (if it is extensive) he has realized his gains. For a person who is receiving money for rents, for dividends on stocks, for freight of ships, and for merchandise, it is important that he keep an account with each of these branches of his business, that he may know 'what part of his property nots him the most per cent. With such information before the mind, the judicious will withdraw his capital from the unproductive, and invest it more in the productive branches of his business. And hence the necessity of separate accounts with ships, cotton, flour, real-estate, &c.

By previous preparation, it is evident that young men may engage in mercantle pursuis with many advantages; and it is therefore highly important that they have access to a work on the science of accounts, so systemized, so simple, and still so comprehensive, as to give all that there are not ably written a works on this subject, or claim an access of originality in the arrangement or matter of this; yet it being the result of much experience and study, he hopes it embodies as many ments, at least, as any Book-keeping in print. By carefully noticing ments, at least, as any Book-keeping in print. By carefully noticing points the most difficulty is encountered, and has consequently dwelled The first set of books in Single-Entry, is arranged in the simplest form possible, showing merely the Day-Book entries, and the transactions there recorded, posted to the Ledger.

The second set, supposes the merchant to begin business with a given capital, to continue the same for three months, when the Balance sheet is taken, and a statement of affairs made out. There is a new Ledger made from the old one, with all the balances carried forward.

In Part I. there is also a great variety of forms of letters, bills, &c., with the Statute-Laws regulating the damages on protested bills, &c., explained.

In Part II., the theory and practice of Double-Entry is introduced and exemplified in four sets of books, with Trial-Balances, Balancesheets, the method of taking thom, &c., fully explained.

The first set records the business of one person during one month, where all the cash and other transactions are found on the Day-Book, which is the simplest form of keeping accounts by Double-Entry. At the close of the month the business closes, the Balance-sheet is taken, and the accounts are equilibrated.

Set II., records the retail business of one individual for four weeks, in which the transactions are journalized once as week, and posted to the Ledger accordingly. The small cash sales made through the week, are entered at the close of each week, in one sum, which is dene on Saturday night, when the cash is balanced. This is a safe and judicious plan for the retailer to sudpri in keeping his accounts.

Set III, records a partnership business, of three individuals continued four months. This set has a Cash-Book, on which all the cash transactions are entered, and from which each sum is posted to the Ledger. There is connected with the same, a Private-Ledger, raisel from the one in daily use, which is kept by the partners, and which shows how much each partner has invested in the business, the sum which each has withdrawn from the concern, and finally, how much has been the neg gain or loss on the business, whon a statement of affirm was made.

It is not designed to make this work an Arithmetic, or a substitute for one; yet it is deemed exceedingly important that a few concise rules for performing various computations in business, with suitable examples, be annexed. They have accordingly been entered, with other important information, in the third Part.

There will be found immediately after the Bill-Book, Set III., a variety of original entries, in the form of a Day-Book, which advanced classes may write into Blank-Books, journalize, and post. The Trial and Balance-sheets will be found in connection with the Day-Book.

A valuable Time and Interest Table, with a Dictionary of Commercial terms. &c., will be found in the third Part.

#### ADVERTISEMENT

#### TO THE STEREOTYPE EDITION.

The favorable reception which the former edition of this work has found in the mercantile community, and its introduction into many Academies and Schools through the States, have induced the author to carefully revise, correct, enlarge, and prepare for the press, the present edition.

In the arrangement of this, every thing particularly important in the first edition is retained, with decided improvements in the mode of journalizing and ruling the books, which, more than any thing else, lessen the labor of the Book-keeper.

There will also be found, in addition, another set of books, Set I, by Double-Drive, entirely changed from the former; many new examples for making Journal-entries; the Statute-Laws of the different States, regulating the damages and interest on protested tills; a condensed and valuable Interest Table; a Timo Table, and a Table showing the weight and value of gold coins, fixed by the Acts of Congress in 1834.

In consequence of the importance which the study of Book-keeping is assuming in all good schools, particular regard has been had to adapt the arrangement and matter of the whole book to the convenience of teachers, to the wants of classes, and to facilitate individual instruction.

#### HINTS TO TEACHERS.

As the design of those who pursue the study of Book-keeping is to make it useful to themselves in actual business, or in teaching it to others. it is highly important that they begin with the first principles. Individual instruction is generally preferable to teaching in classes, but as that method is not practicable in ordinary schools, classes must necessarily be formed, and consequently such a course must be pursued by the teacher as will best meet the wants of the whole. To the classes, the teacher should explain the object of Book-keeping, the importance of keeping accounts systematically and correctly-should tell them that ignorance on this subject is generally the cause of insolvency among business men, and that no portion of a business man's time is more profitably spent than that bestowed upon his books-that this science is important, not only to the merchant, the lawyer, and the physician, but is a great accomplishment to any class of individuals; that the theory is beautiful, and the practice useful, and that both may be acquired under a competent instructor, sooner than in any other situation. The teacher should also illustrate the peculiarities of Double and Single-Entry Bookkeeping; in what the difference between the two methods consists, and the decided preference which the former has over the latter. Such, and similar suggestions, usually awaken in the mind of the learner an interest, which, in this, as in other branches of education, is indispensable to success.

The questions and answers on pages, 9, 10, and 11, may now be studied and recited to the teacher, after which he may suppose purchases and sales of goods, and show his class how he would record such transactions on the Day-Book-what accounts would necessarily be opened in the Ledger, in order to post those Day-Book entries, and how such accounts should be closed, when payment is made,

The class should be made familiar with the language in which any business transaction is recorded, remembering that conciseness and perspicuity are highly important in making the original entries. This familiarity may be acquired by recording a variety of business transactions, on the black-board or blank-books, by the pupil, and the correction be made by the teacher.

The Day-Books, Set I. and II., Single-Entry, may now be copied, if deemed expedient by the teacher, into blank-books, and afterward posted and the accounts balanced. It will not be well to dwell longer upon the process of Single-Entry, but pursue the principles and practices of Double-Entry; for a competent knowledge of the latter, implies an understanding of the former, except some few particulars.

The class may now take lessons to advantage in Part II., and be carefully drilled on the explanation of the Ledger-Accounts (pages 79 to 86,) the method of journalizing (pages 71 to 78,) the process of opening books (pages 88 to 96,) and all the matter preceding Books, Set I.,

on which pertinent questions will be found.

Too much stress cannot be laid upon the importance of understanding the object of the accounts in the Lodger, for on the arrangement of this Book are deduced the principles of journalizing. Hence the folly of making a Lodger under the direction of a series of arbitrary rules. I have never known a person become a practicel Book-keeper, who would use legy and new famesters. The instruction in a school should comtain the series of the series of the series of the series of the merchant would be so foolish as to teach his clerk to keep books by the direction of arbitrary rules!

The supposed transactions beginning on page 73, and concluded on page 78, may be given to a class, for several lessons, to be written out in a nerrative style, fall and concise, on loose paper or late. When the class comes together, each may be required to read aloud the record as & has is, after which, if necessary, they may be corrected, punctuated, and in some cases journalized and posted. The learner should at least tell leve to do the same. The writer finds such a course highly useful in teaching Book-keening.

Day-Book, Set I., (page 101) may now be copied into blank-books, which the class may rule with red or black ink, (if they have not books ready ruled) ruling the lines in the same way as found in the printed book.

After copying the Day-Book, the learner may journalize the same

on a slate or sheet of paper, referring to the explanation of Ledger-Accounts, beginning on page 79 for rules to make the Journal-entries. The Journal-entries made as directed, may now be examined by the

The Journal-entries made as directed, may now be examined by the teacher, or compared with the printed Journal, and if correct, they may be written out on the ruled, blank Journal.

It is not so important that the learner make the Journal-entries independently, (although that is, in most cases well,) as to understand the principles, and give a recison for journalizing the transactions one way rather than another. The sooner the principles involved are comprehended, the better, as the pupil may now give his time to acquiring a facility, correctness and neathess in writing up his books; which is the practical part of Book-keeping, and which is generally the grand desideratum.

The class should, before going further, be carefully questioned on the principles of making Journal-entries, posting &c.

The name of every person and thing, which is found on the Journal,

must be written in the Ledger, in large hand, to which, under their respective heads, all the sums must be transferred, or posted. The Trial-Balance, the Profit and Loss, and Balance-sheets, may be

The Trial-Balance, the Profit and Loss, and Balance-sheets, may be successively made out according to the directions given on pages 119 to 127, which are full and lucid.

Each of the accounts in the Ledger may now be added and equilibrated as per directions. The learner will derive great advantage from writing out the several sets of books, in so far as it gives him not only the theory, but the practice of keeping accounts, and soon familiatizes him with the whole process of opening, conducting, and closing books.

## BOOK-KEEPING.

### QUESTIONS AND ANSWERS.

- What is meant by Book-keeping?
- Book-keeping is the art of recording transactions in trade, in a concise and perspicuous manner, so as to show the sum and all parts of the merchant's property.

  2. Is there more than one method of keeping accounts?
  - There are two methods; one by Single and the other by
  - Double-Entry.

    3. What is the distinction between the two?
  - In Single-Entry, the item recorded in the Day-Book, is entered but once in the Ledger.

#### EXAMPLE.

Should I sell John Brown, on account, goods amounting to \$100, I should first record it on the Day-Book, and then post (or place) \$100 to the Dr. or left hand side of John Brown's account in the Ledger. Hence, Single-Entry.

In Double-Entry, each sum is entered in the Ledger, at two or

#### EXAMPLE.

If I sell John Brown merchandise on account, amounting to \$100, I post the \$100 to the Dr. or left hand side of John Brown's account, also \$100 on the Cr. or right hand side of the merchandise account, in the Ledger. Hence, Double-Entry.

4. Which plan is best adapted to a small business?

Single-Entry is commonly preferred for a small business, as it saves some writing, especially if it be a retail business; yet eve-

ry departure of the merchant from Double-Entry, will produce uncertainty in his affairs. The method of Single-Entry being the more simple, will occupy the first part of this treatise.

5. What is the ultimate design in recording transactions in trade?

That the merchant may at any time ascertain his gain or loss on business, and in what his property consists.

6. In Single-Entry, what Books are necessary to accomplish that end?

The Day-Book, in the beginning of which is to be recorded a minute and concise statement of the Merchant's or Tradesman's affairs when he commences business; a history of his debts and effects, and afterward a record of what individuals have bought or received of the Merchant, and of what the Merchant has bounts or received of individuals on account.

The Ledger, in which the Merchant, devoting one page to each person with whom he has transactions in trade, and writing his name in large round hand at the top of the page, posts to the Dr. side, all sums which the individual owes him, and on the Cr. side posts all sums which he has had of the individual, on account.

In addition to the above Books, may be introduced the Journal, Cash-Book, Bil-Book, Book of Shipments, Account-Current-Book, Letter-Book and Invoice-Book, depending much on the nature of the business. When the Journal is used, it is only a neater and more concise form of the Day-Book, and instead of posting from the Day-Book, the items are taken from the Journal, to the Lodger.

7. Is it essential in what order the accounts are opened in the Ledger?

The stock account should appear on the first page, after which, the order is not important in Single-Entry.

8. Having the accounts opened on the Ledger, (with one or two on a page, as may be expedient) how does the Book-keeper next proceed?

He posts the accounts; which is simply collecting the items of each account, as they have been recorded in the Day-Book or Journal, and placing the same under their respective heads, in order to show the state of each account, after these entries are posted. 9. Is it necessary to have any reference figures, from the Ledger to the Journal, and vice versa?

It is frequently important to refer from one Book to the other, and to facilitate the matter, the folio of the Ledger where the entry is made, is placed in the marginal column of the Journal; and in the Ledger, the folio of the Journal whence the item was taken. See Journal and Ledger, Set 1st., Double-Entry.

When the Ledger is made from the Day-Book, reference figures must be placed on the Day-Book and Ledger.

10. Does any business require more than one Ledger?

Manufacturers frequently keep, besides the principal Ledger, a Petty-Ledger, on which they enter the names of their workmen, to whom they are paying small sums of money, or to whom they are trusting stock, and from which they transfer the total of cash, merchandeise, &c. to the principal Ledger. This method keeps the large Ledger neater, saves labor in taking the Trial-Bal-ance, &c.

11. When is an account said to be closed, and when equilibrated or balanced?

In adding two sides of an account, when the one side is equal to the other, the account is said to be closed; when the sides are unequal, requiring on the smaller side, the difference to make it equal, the account is said to be equilibrated.

12. Why and how are Books compared?

The design of comparing Books is to ascertain whether the items have been correctly transferred from the Journal to the Ledger; and this is the best accomplished, by one person reading the folio of the Ledger from the Journal, giving the amount, date, &c. while another turns to that account in the Ledger, and finding it correctly posted, marks it with a dot, thus.

13. Should errors be found in posting, how are they corrected?

When an item has been overlooked, earry it to its proper account as soon as discovered, placing on the margin an x where the item is peated, and another where it should have been posted. When an item is carried to wrong account, place the same amount on the opposite side by or to error, with an x gainst each, on the margin—so when a wrong sum has been posted, or when carried to the wrong side of an account.

#### REMARKS

The following short set of Books, the Day-Book and Ledger, exhibits the simplest form of keeping accounts which can be adopted, where any degree of accuracy is required. It may answer for a farmer or mechanic who has but little occasion to record his business transactions, but if the business is at all important the 2nd set of books should have the preference.

It will be seen that the Stock, Čash and other accounts, are not opened in this Ledger, and only the names of the persons who are trusted appear. There are some individuals who keep a Day-Book or a Ledger alone, but a man's business must be very small to require only one book to record it.

When a person becomes indebted to the owner of the Books, for goods, for labour, or for any cause, the owner of the Books makes record of the same on his Day-Book, and then writes the person's name in the Lodger, under the Dr. side of which, he writes the amount which the person payes him. When the person pays any thing, the owner of the Books posts or writes the sum which he receives of the person under the Cr. side of his account. Thus the difference between the Dr. and Cr. column shows how much cone owes the other. If the Dr. side is the largest, the balance is in favor of the owner of the Books; and vice verse.

# PETTY CASH-BOOK,

SINGLE-ENTRY

#### REMARKS

#### ON THE SUCCESSING SET OF BOOKS.

- 1. The succeeding set of Books shows a simple method of keeping accounts by Single-Entry, which may be adopted by individuals adoing a small or retail business. In connection with the Day-Book, on which are recorded all the transactions except the daily sales, is a Cash-Book, called generally the Petty Cash-Book, in the Dr. column of which are entered the amounts of money taken through the day for goods sold, and in the Cr. column all sums paid for postage, catrage, clerk-hire, &c. the balance of which is carried to the Day-Book, teeekly, and called "Sales this week."
- The form of the Petty Cash-Book, as kept by the Merchant for the first two weeks, is given, showing the plan on which the accounts were kept during the three months.

The cash transactions are recorded on the Day-Book, as if no Principal Cash-Book were kept. The form of such Cash-Book, however, is given, which may be used if desirable, and when used, the sums of Cash received must be entered on the Dr. page, and the sums paid away entered on the Cr. page, so the difference between the Dr. and Cr. column will be the amount of cash on hand. When such Cash-Book is used, the cash transactions do not appear on both Cash and Day-Book, as in Set 2, but only on the Cash-Book.

This is a statement of D. Bond's affairs on March 31st., 1838; the debit side showing the cash on hand, and all the debts owing to him; and the credit side, the debts which D. Bond owes to other individuals. The Merchandise all having been disposed of, D. Bond's property is composed of cash and debts, which, after his own debts are canceled, will amount to 7,697 16

The amount carried into business, in Mdse., 5.000 Cash. 1.000

6,000

Leaving a gain on his business of Stewart & Co.'s Draft for \$200, due March 1st., being paid in Merchandise, no account of it was made on the Day-Book.

The Balance-Sheet, after being proved correct, should be copied into the Ledger, directly after the accounts now equilibrated. The Balance-Sheet should also be preserved and kept in the Safe or with the cash in the Cash-Depository, that the merchant, in case his Books should be destroyed, could refer to this and learn the state of his affairs when the Books were last balanced.

At the balancing of the Books, the Merchant must have taken account of the stock unsold, before he can find the gain or loss on his business since last balancing the Books.

### REMARKS.

The number of Books made use of in any business, must depend upon its nature and extent, of which they are to be a true record. The design of increasing the number of Books being to render more perspicuous one's business, and to facilitate the labor. it would be idle for the Dry-Goods retailer to introduce into his business all the Books requisite for a Wholesale and Commission business. When people limited their trade to their own cities, or even country, fewer Books were required to record the business transactions, and the method of Single-Entry answered a tolerable purpose; but as commerce increased, a larger number of Books were indispensable, and to record their business transac tions by Double-Entry, was found the only safe method that could be adopted. As it is the design of the author to simplify the subjects as much as may be, by dropping every thing unim portant, and introducing all essentials, the subsidiary Books used in business will only be enumerated, forms given, with due expla nation

Accounts-Current having been taken from the Ledger and prepared to transmit to correspondents, are first copied into this book.

On the debit side are entered all expenses incurred for your correspondents; and on the credit side are placed all sums which you have realized from the sale of the goods, or otherwise.

#### PETTY CASH-BOOK

On this book are entered all petty expenses, such as for postage, cartage, porterage, &c.; and the sum total of these is carried to the principal Cash-Book, daily, weekly, or monthly, as may be expedient.

#### BOOK OF SHIPMENTS.

This is sometimes called the Invoice-Book outward, and on it are copied all Invoices of goods sent abroad, either to order or on consignment.

Invoice of Goods shipped to John Haggerty & Co., New-York, to sell on our account.

## WITH GOODS CONSIGNED.

HARTFORD, June Sth, 1837.

Messrs. Brown & Co., } New-Orlean :. } Gentlemen,

Annexed, you have an invoice of Cloths, per the Ocean, Capt. Johnson, Master, amounting to \$4120,50, to be sold on our

account.

As the Cloths were manufactured from wool of a superior quality, and in a manufactory second to none in the country, we anticipate a ready disposal of the consignment. We are confident that no pains will be spared on your part, to effect advantageous sales, knowing that further consignments from us will depend upon the result of the present.

We are, Gentlemen.

Yours respectfully,

H. H. & Co.

#### WITH ACCOUNT OF SALES.

Mosers. Hunks, Harris & Co., }

NEW-ORLEANS, Aug. 20th, 1837.

Gentlemen.

We lose no time in furnishing you with an account of sales of Cloths, per the Ocean, net proceeds amounting to \$5500,00.

We take the liberty to send you, for the above amount, our Draft, at 20 days sight, on P. W. & King, New-York.

Your consignment reached us in good time; there being but few superior woollens in the market at wholesale, we were able to dispose of them at a price, which, we trust, will prove highly satisfactory to yourselves. Rest assured, that any business with which you may be pleased to intrast us, will receive due attention. In the mean time, subscribing ourselves Your ob't servants.

Your on t servants,

Brown & Co.

HARTFORD, July 2nd, 1837.

Messrs. J. Hart & Co., } New-York.

Gentlemen,
Please ship for us, per the first vessel bound for Hartford,
488 bbls. of superior Flour, at \$10,00 per bbl., delivered, as per
your last advices.

You can draw upon us at 10 days sight, for the above amount, payable at the Phœnix Bank, or otherwise, as may be most agreeable to yourselves, assuring you in either case your Draft shall be honored.

We are, Gentlemen,

Yours respectfully,

H. H. & Co.

Mosses. Hanks, Harris & Co Hartford.

Gentlemen, Agreeabl

Agreeable to your favor of the second, we have shipped for your account and risk, on board the Hero, Captain Sans, Master, for Hartford, 488 bbls. Flour, at \$10,00 delivered, amounting as per Invoice, to \$4880, which we have placed to your debit. Waiting further orders,

We remain, Gentlemen,

Your's truly,

J. HART & Co.

### GETTING ACCEPTANCE.

Mesers. John Howard & Co., } New-York. Hartford, July 8th, 1837.

Gentlemen,

Please do the favor of procuring acceptance on the inclosed Draft for \$1,000, at 10 days sight, on \$St. Johns & Co., Pearlst, and retain the same in your possession till maturity, at which time you can pay the amount to Warriere & Birch, on our account, taking their receipt for the same. In case of non-acceptance, you will have the Bill protested, giving us due notice. Believe us, Gentlemen.

T. .

Your's respectfully.

HANKS, HARRIS & Co.

### ON PROTEST.

Naw-Yoax, July 24th, 1837.

Mossrs. Hanks, Harris & Co., Harrisond.

Gentlemen.

In conformity with your favor of the 8th ultime, your Bill has been duly presented for acceptance, which being refused by St. Johns & Co., is now under protest. No exertions were spared on our part to procure acceptance, but all to no purpose. Waiting further orders.

We are, Gentlemen,

Your's truly,

John Howard & Co.

#### ORDERS TO INSURE.

John Trust, Esq., } New York. }

Please effect Insurance for our account, on thirty-three bales Broadcloths, \$4120,50, shipped per the Jane, Capt. Benson, from this port to New-Orleans, placing the amount of insurance to the Dr. of your

Humble servants,

HANKS, HARRIS & Co.

Hantyonn, July 2nd, 1827.

#### HAVING EFFECTED INSURANCE.

New-York, July 9th, 1837.

Mesers. Hanks, Harris & Co., Harriford.

Gentlemen,

In obedience to your request of the 2nd, I have effected insurance with the Marine Insurance Company, for \$4120,50, on the cloth consigned per the Jane, Capt. Benson, Master, for New-Orleans—Premium and Policy amounting to \$80,00, which I have placed to your debit.

I am, sir,

Very respectfully your's,

John Trest.

New-York, July 12th, 1827.

Messrs. Hanks, Harris & Co., Harrised.

It is with regret that I inform you of the total loss of Flour, per the Hero, Capt. Sans, from this port to Hartford. I am happy, however, that it was insured, as per your advice, and that the underwriters, with whom the insurance was effected, are honorable men, and have agreed to pay the above on the 30th inst, immediately after which you shall be in cash. Meantime I am.

Gentlemen,

Your's very truly, JOHN TRUST.

BARKHAMSTED, Sept. 1st., 1637.

Mosers. Hanks, Harris & Co.,

Gentlemen.

It becomes my painful duty to inform you that our Company, in consequence of certain unfortunate engagements with several houses in New-York, find it out of their power to meet their engagements, and are obliged to suspend payments. You, being one of the creditors, will, with the others, be day notified of a general meeting, when the balance-sheet will have been taken and submitted for examination.

In the mean time, we shall collect such facts as will convince all, that the embarrassments have arisen, not from mismanagement on our part, but from causes entirely beyond our control. Your's, very respectfully.

SUPER SUPERFINE.

HARTFORD, July 4th., 1837.

Washington. Sir.

It gives us much pleasure in introducing to your acquaintance, the bearer, Samuel W. Chapin, of our place, who anticipates spending some months at Washington.

As Mr. Chapin is a particular friend of ours, we shall feel personally obliged for any marks of civility and attention which you may show him, assuring you at the same time that you will find him a gentleman and a scholar.

We remain, most truly, sir,

Your obedient servants,

Brown & Brothers.

#### QUESTIONS AND ANSWERS

oN

#### FOREIGN AND INLAND BILLS

What is a Rill?

A Bill is an obligation by which one party binds himself to pay a certain sum of money to another party, at some future period therein specified.

What is an Inland Bill?

An Inland Bill is one payable in the same country or state in which it is drawn, and may be in the shape of a Promissory Note or Draft; the former containing a promise and the latter an order.

What is an Inland Draft?

An Inland Draft is an order from a party called the Drawer, hite-set in another party called the Drawer, both in the same country or state, requiring the latter to pay to his order, at a specified time, a certain amount in money or other property. What is a Promissory Note?

what is a Promissory Note:

A Promissory Note is a written promise from a party called
the maker, to another party called the payee, or holder, to pay
a certain sum of money or other property, to his order, within a

specified time.

What are the requisites for a regular Bill?

In a regular Bill, the following four particulars are requisite— 1st. The sum, place, and date; 2nd. The time of payment; 3rd. The person to whose order it is payable; 4th. The address and superscription.

How many persons may be concerned in an Inland Bill?

The Drawer, Drawee, Acceptor, Payee, Indorser, and Indorsee. The Drawer is the party that makes the Draft.

The Drawee is the party on whom it is drawn.

Note.—Drafts which are made or indereed in one of the states and payable in another state, are by the best subscript now considered Foreign Bills. The laws which regulate Bills are made by each state for itself.

Acceptor is the party on whom it is drawn, and by subscribing it, is bound to pay its value when due.

Payee is the party to whose order the Draft is made payable, and who must be the first indorser.

Indorser is the party who writes his name across the body of the Bill.

Indorsee is the holder or party to whom the Bill is last indorsed.

What is meant by Discounting a Bill?

Discounting a Bill means to procure cash for it before it is due; and a Bill is said to be discounted when it is indorsed to any person or Banking Company, that pay the holder the net proceeds; that is, the face of the note, less the interest, for the time it has to run before maturity.

What are the incidents to which Bills are subjected, after they are delivered by the Drawer?

Acceptance, Indorsement, Payment, and Protest.

What is an Indorsement?

A general Indorsement is when the holder's name only is written on the back, being in effect a promise to pay, should the acceptor or any of the previous indorsers become insolvent.

A special Indorsement is when the holder names the party to whose order he indoress it; and this form is preferable to a general Indorsement, in remitting bills, in point of security, because it prevents, as far as possible, fraud or forgery, as the person's name to whom it is indorsed, must be forged before it can pass.

When should a Bill be presented for payment?

It should be presented on the last day of grace, within Bank hours, that is, before 3 o'clock, P. M. and after 9 A. M.

What is meant by Days of Grace?

Days of Grace are a certain number of days after the time limited by the Bill, which the acceptor has a right to demand on payment of the same. These days were so called because they were gratiously allowed; but now, by custom of the merchants, sanctioned by the decision of the courts of justice, they are demandable of right. The number of these days varies, according to the different custom of different nations, and must always be computed according to the laws and customs of the place where they become due. Three days are allowed, as a general thing, in the United-States of

If the last day happen on a Sunday, fast-day, or any holiday, the Bill becomes payable on the preceding day. Amsterdam has 6 days; Hamburg, 12; Paris, 10; Madrid, 14; Leghorm, 0; Naples, 3; Genoa, 30; Venice, 6; Lisbon, 6; London, 3; Dublin, 3; Gibraller, 14; Vienna, 3; Copenhagen, 8; Dantzie, 10; Trieste, 3; Cadiz, 6; Petersburgh, 10; Rotterdam, 6; Edinburgh, 3; Genera, 6; Bernen, 8; Antwere has 6 days grace.

What is a Foreign Bill?

A Foreign Bill is an order from a party in one country, addressed to another party in a different country, requiring him to pay a certain sum to his order, or to a third or fourth party, at a specified time.

What is meant by Protesting a Bill?

If a Foreign Bill is refused acceptance, when presented or refused payment when it becomes due, it must be Protested. For this purpose, it is necessary to cause a Notary Public to call on the party drawn upon in the former case, or at the place where it is made payable in the latter case, and demand acceptance or payment, (as the case may be,) by which he secures his right of recourse against the Drawers and Indorsers, jointly and severally, for payment, interest and damages.

What is meant by Noting a Bill?

The Notary's marking on the Bill the date of protesting, with his initials, which is legal evidence of protest.

What is the consequence of neglecting Protest?

A Bill neglected to be protested, loses it privileges, and becomes only a simple document, on which an action may be raised against the acceptor for the payment of the debt; but this is attended with many disadvantages.

How is the time of payment fixed on Bills drawn after sight?

The acceptor marks the date of his acceptance on the Bill, and the term is only computed from it, and not from the date of the Bill.

What is Usance or Double Usance?

Usance is the usual time at which Bills are drawn between different places, as one, two, or three months after sight; and Double or Treble Usance, means twice or thrice the time and half Usance is one half the time.

What is a proper negotiation of a Bill?

It consists in the diligent and due performance of the several duties which the law, and the practice of the country, require of the several parties.

What is the duty of the Drawer?

It is the duty of the Drawer to furnish the Payee with a good and unexceptionable Draft on a Drawee with whom he has sufficient credit, or funds in his hands; because in case of non-acceptance or non-payment, the Payee or holder can sue the Drawer for the amount of the Draft, and damages.

What is the duty of the Drawce?

The duty of the Drawee is to be punctual in returning any Bill transmitted to him for acceptance, by the first post, whether accepted or not; otherwise he is answerable for the sum of the Bill, unless he give due intimation of his non-acceptance.

What is the time allowed for acceptance of Bills drawn after sight?

The Drawee, in general, ought to accept in twenty-four hours, or to signify to the Payee or holder, that it will not be accepted If it be a Bill drawn after sight, and which he means to accept, he is bound to date his acceptance on the day it was presented, or at all events, the day following. And he is bound to accept the Bill of the Drawer to the amount of funds belonging to the Drawer in his possession.

What is meant by accepting and paying Supra-Protest?

A Supra-Protest, or acceptance upon honor, is a collateral acceptance, by first allowing the Bill to be protested, and then for the honor of the Drawer or Indorser, immediately accept it, by which means, should the Acceptor not afterward be put in possession of funds, he will secure his right of recourse.

How is a Supra-Protest taken?

The Drawce must write on the Bill to this effect: "Accepted Supra-Protest in honor of A. B.," after which he should immediately send the Protest, and the information of the acceptance, to the party for whose honor it was accepted.

Why is it necessary that the Drawer should get early notice of non-acceptance?

To enable him to take the necessary steps for recovering any effects which he may have in the hands of the Drawee, as well as to furnish the holder with another Bill, or providing for payment of the dishonored one by the time it falls due.

What is meant by a Bill being dishonored?

Bills are dishonored when acceptance or payment is refused, by which a protest becomes necessary as soon as the Drawee refuses to accept or pay. When a Bill is dishonored for non-payment, it generally, at least, in the way of countesy, returns successively in the way it advanced, until it reaches the Drawer; although the Holder may take any of the preceding Indorsers he chooses, holding them responsible for the sum of the Bill, for interest and excuses.

What are the consequences, should the Holder neglect to Protest it in due time, or to give intimation of non-acceptance or nonpayment?

Should the Holder either neglect to protest in due time, or to give intimation of non-acceptance or non-payment, he forefits all claim against any of the Indorsers, because by this neglect of his duty he puts it out of their power to take legal steps for their relief, even though he can show from the failure of the Acceptor, or any other circumstance, that no loss, in point of fact, ensued from his neglect.

What time does the Law allow to give intimation?

In ordinary cases, intimation of the dishonor of a Foreign Bill must be forwarded by the *first post*; and if an Inland Bill, the same is required.

## FORMS OF BILLS.

#### DHE-BILL.

A Due-Bill is simply a pledge on the part of the giver, to pay to the givee so much cash or other property, at some fature period, in consideration of an equivalent received. It is doubtful whether it is entitled to any interest, except it be written, "with interest."

#### FORM I.

Due, Hartford, March 15th, 1838, to John Trust, Five Hun dred Dollars, value received.

Samuel Risk.

### FORM II.

\$500,00.

Due, Hartford, March 15th, 1838, to John Trust, Five Hundred Dollars, to be paid in Goods from my store, value received.

- Samuel Risk.

#### RECEIPT.

This merely certifies that the giver has received from the givee a certain amount of cash, or other property, on his own or on the account of a third person.

#### FORM I.

\$150,00.

Received, Hartford, March 15th, 1838, from Daniel Wadsworth, Esq., One Hundred and Fifty Dollars.

#### FORM II.

Received, Hartford, March 15th, 1838, from David Sage, Three Hundred Bushels of Merchantable Corn, in full of all demands. J. King. \$300,00.

FORM III. Received, Hartford, March 15th, 1838, from S. Tudor, on account of Thomas Brown, Three Hundred Dollars, in full of all demands against said Brown. Errors excepted.

H. THORNDIKE.

### PROMISSORV NOTE

A Promissory Note is a written obligation of one party, to pay to another party, at some future period, a certain amount of cash. or other property, in consideration of an equivalent received, These Bills are generally transferable, at the option of the holder, and may pass through a dozen hands before payment.

FORM I.

\$1,000

HARTFORD, March 15th, 1838.

One month from date, I promise to pay to the order of John Jacob Astor, at the Hartford Bank, One Thousand Dollars, value received.

SAMUEL PARKER.

The above form would be transferable, but the holder must lodge it in the Hartford Bank 33 days from date, or before, as the maker is not obligated to pay it elsewhere till after the given date.

FORM II.

HARTFORD, March 15th, 1838.

\$1,000. Sixty days from date, we severally and jointly promise to pay to the order of Daniel Wadsworth, One Thousand Dollars, value received. SAMUEL W. CHAPIN.

CHAUNCEY HOWARD.

A Bill of this form will hold either of the signers responsible. and "in case of need," either, or both, may be sued for its payment FORM III.

HARTFORD, March 15th, 1838.

\$500,00 Ten days from date, I promise to pay J. J. Astor, Five Hundred Dollars, value received.

JOHN DOW. .

Any legal steps taken in relation to this Bill, must be instituted in the name of the givee, though it may have had a number of owners, and still be in the possession of another person.

#### DRAFTS.

A Draft is an order from one party, requesting another party to pay, at some definite time hereafter a certain amount of money, or other property.

#### FORM I.

HARTFORD, March 15th, 1838.

\$500.00

Thirty days from date, pay to my order Five Hundred Dollars, value received, and place the same to the debit of SAUL H. PORTER.

To Cales Pont, Esq., J Hartford, Com.

The above Bill being presented for C. Pond's acceptance, he will write across the face of it, "Accepted;" obligating himself by the same token to pay the amount agreeable to terms pre-SCHOOL. It having now become virtually a promissory Prox, is may be transferred like any negotiable paper, before maturity.

FORM II.

HARTFORD, March 15th, 1838.

\$500.00 At sight, pay to the order of William H. Imlay, Five Hundred Dollars, value received, and place the same to the debit of

To Cally Pour, Esq., } Hartford, Coun.

FORM III.

HARTFORD, March 15th, 1838.

\$300,00.

Ten days from sight, pay to the order of Daniel Wadsworth, at the Hartford Bank, Three Hundred Dollars, value received, and

SAUL H. PORTER

SAUL H. PORTER.

To Cales Ponn, Esq., } Hartford, Conn.

place the same to the debit of

This Draft, after acceptance and before maturity, must be lodged in the Hartford Bank for collection. The above would become due, including three days grace, 13 days from acceptance Should the third form fall due on Sunday, Thanksgiving, Fastday, or any day of public rest, or a special holiday, payment would be lawfully exacted on the preceding day, and unless paid accordingly, it might be protested.

#### BILLS OF EXCHANGE.

Bills of Exchange are the channel through which many merchants meet their liabilities to others, and through which most debts are canceled between individuals of different nations. These Bills are styled Inland, if confined to parties of the same country, and Foreign, if they pass from one nation to another; both, however, being entitled to nearly the same privileses.

The great safety and convenience which Bills of Exchange proffer to individuals going from one country to another, and in canceling debts between A. and B. of different nations, have rendered them very common and almost indispensable.

For instance—B, of London, owes A, of Hartford, \$1,000. C, who is going to London, and is in want of \$10000 en his arrial there, buys a set of Exchange or Draft of A. on B., which enables B. to cancel the debt with the least possible trouble, and also puts C in funds when he arrives, without the risk and trouble of transporting specie. Three days grace are allowed on these Bills in England and the United-States, as on promisory Notes, and indeed, what is true of Drafts, as such, is substantially true in relation to Bills of Exchange.

These Bills are sold by Banking Companies and Brokers, principally, both on their own account and for individuals, who, having debts abroad, deposite Drafts with the Brokers, to sell, on which a premium of from 2 to 12 per cent. is paid.

A set of Exchange is from 2 to 6 copies of the same Bill, being fac-similes of each other, except the clauses, (2nd. and 3rd. unpaid.) (1st. and 3rd. unpaid.) (1st. and 2nd. unpaid.) &c., which phrases, one having been paid, render the remaining copies null and void. Each of these copies are sent out by different vessels, to prevent delay in payment, should the first be lost. PARM

HARTFORD, Feb. 10th, 1838.

Exchange for £1,000.

At sight of this my first of exchange, (second and third unpaid,) pay to the order of Dubois & Long, One Thousand Pounds, Sterling, value received, and place the same to the debit of D. W. CLARE.

To J. Lonn & Co., }

HARTFORD, Feb. 10th, 1838.

Exchange for £1,000.

At sight of this my second of exchange, (first and third unpaid,) pay to the order of Dubois & Long, One Thousand Pounds, Sterling, value received, and place the same to the debit of D. W. CLARE.

To J. Lonn & Co., London.

HARTFORD, Feb. 10th, 1838.

Exchange for £1,000. At the sight of this my third of exchange, (first and second unpaid,) pay to the order of Dubois & Long, One Thousand Pounds, Sterling, value received, and place the same to the debit of

To J. Loun & Co.,

D. W. CLARKE.

Accepted, April 20th, 1838.

J. Lord & Co.

The phrase, "as per advice," and "in case of need," "A. B.," &c. The former expression implying that the drawer had previously advised the drawes, per letter; and the latter phrase is sometimes inserted where there is some fear that the Bill will not be accepted by the drawee, in order that the older may present it (in case of refusal by the drawee) to A.; and if he does not honor; it, to present to B., &c. This arrangement may supersede the necessity of returning the Bill to the maker, and save the maker the mortification of having his Bill dishonered.

### DAMAGES ON PROTESTED BILLS.

When Bills of Exchange or Drafts are protested for non-acceptance or non-payment, the State in which the Bill was drawn or negotiated determines the damages which shall be paid on such Bill. The damages in several of the States are as follows:—

The damages on Bills drawn or negotiated in Massachusetts, payable in any place beyond Cape of Good-Hope and protested for non-acceptance or non-payment, are 20 per cent, with interest, and so much money as will buy a good Bill on the place where the first was payable; if such Bills are payable in any other place out of the United-States, the maker or indorser shall pay the amount of the Bill, on demand, at the then current rate of exchange, with 5 per cent. damages and interest on the contents, from the time of protest, which shall be in full, for all damages, charges, and protest.

The damages on such Bills, payable in any of the New-England States, or New-York State, are 3 per cent.; if payable in Virginia, New-Jersey, Pennsylvania, Delaware, Maryland, or the District of Columbia, damages are 5 per cent.; if payable in North-Carolina, South-Carolina or Georgia, damages are 6 per cent.; if payable in any other, place in the United-States, the damages are 9 per cent.; if 8100, or more, and payable in the same state, and more than 75 miles from where it was drawn, damages are 1 per cent. The holder is, in all cases where the Bill is payable in the United-States, entitled to so much money as will buy a good Bill, interest, charges, and the fore-mentioned damages.

The damages on Bills drawn in Connecticut, and payable in other States or places, which shall be returned, under protest, shall be as follows. If payable to any person in New-York city, 2 per cent on the specified sum; if to any person in New-Mont, New-Hampshire, Maine, Massachusetts, Rhode-Island, New-York, (except the city) New-Jersey, Delaware, Fennsylvania, Maryland, Virginia, or the District of Columbs, the damages are 3 per cent. upon the principal sum; if payable to any person in North-Carolina, South-Carolina, Ohio, or Georgia, 5 per cent. on such principal sum; if to any person in any other State or Territory, or District in the United-States, 8 percent. on such principal sum. These named damages shall be in lieu of interest and chargest till the time notice is given the maker or indorsers of protest. In all cases the holder is entitled to a new Bill, or so much money as will buy one at the then current rate of exchanges.

The damages on Bills drawn, or negotiated in New-York, payable in any of the New-England States, New-Jersey, Pennsylvania, Ohio, Delaware, Maryland, Virginia, or the District of Columbia, and returned under protest, are 3 per cent.; if payable in North Carolina, South-Carolina, Georgia, Kentucky, or Tennessee, and returned under protest, the damages are 5 per cent.; if payable in Europe, or any State or Territory in the United-States, north of the Equator or West-Indies, or any other place in the Western or Atlantio Ocean, and returned protested, the damages are 10 per cent. Such damages shall be in lieu of interest, charges, &c., till the time when demand shall be made, after which demand interest shall be allowed on the principal sum, and charges. The holder is entitled in addition to such damages, to a new Bill, or money to buy such Bill at the current rate of exchange between the two haloes.

The damages on Bills drawn or negotiated in Pennsylvania, payable out of the State, but in the United-States, (Louisiana excepted,) and returned under protest, are 5 per cent.; when payable in Louisiana or say other place (out of the United-States,) in North-America or its Islands, except the North-West Coast of America, Mexico, or in any of the West-Indian Islands, or Bahama Islands and returned under protest, the damages are 10 per cent.; when payable in Madeira, the Ganariea, Azorea, Cape-de-Verd Islands, Spanish Main, or Mexico, and returned protested, the damages are 15 per cent.; when payable in Europe, or its Islands, and returned under protest, the damages are 20 per cent, and in any other part of the world 25 per cent. Interest is given on the amount of the Bill; damages and charges are allowed from the time of notice of protest; and the amount of the Bill, and damages are to be determined by the rate of exchange at the time of notice.

The damages on Bills drawn or negotiated in Louisiana, payable out of the jurisdiction of the United-States, and returned underprotest are 10 per cent.; if payable in any other State in the United-States, and protested, the damages are 5 per cent. upon the sum specified in the Bill. Such damages are in lieu of interest, charges, and protest, till notice is given of protest. Also so much money as will bywa another rood Bill on the same palse.

The damages on Foreign Bills, drawn in Illinois and protested for non-payment or non-acceptance, are 10 per cent, and on Inland Bills the damages on protest are 5 per cent; with incidental charges, interest from the time they should have been paid, and the principal sum of the Bill to be settled at the current rate of exchange.

### BILL OF LADING.

Shipped, in good order, and well-conditioned, by Hicks, Lawrence & Co., on board the ship, called the North American, whereof John Smith is Master, for the present voyage, now lying in the port of Hartford, and bound for New-Orleans. To say.

No. 1, 2, 3, D. Boxn, Three loaves, containing books, being marked an numbered as in the margin, and are to be delivered in the like good order, and well-conditioned, at the aforssail port of New-Orleans, (the danger of the seas only excepted,) unto D. Bond, or to his assigns, he or they paying freight for the said goods, with primage and average accustomed.

In witness whereof, the Master of the said vessel hath affirmed to three bills, of lading, all of this tenor and date; one of which being accomplished, the others to stand void

Dated, at Hartford, Conn., J July 31st., 1629.

JOHN SMITH.

# COMMON PROTEST

## OF A FOREIGN BILL.

On this 2nd. day of March, in the year 1838, at the request of D. Bond, of the city of New-York, incichant, and bearer of the original Bill of Exchange, whereof a true copy is on the other side written, I, D. Brown of the said city, Notary-Public, duly administed and sworn, went to the store of D. Brand, on whom said Bill is drawn, and there speaking with a clerk in the accounting house, I produced and exhibited to him the said original Bill of Exchange, and demanded acceptance thereof, to which he answered—That he knew nothing about its acceptance, and which answer not being satisfactory, I, the said Notary, at the request aforesaid, have Protested, and by these presents do solemally Protest, as well against the drawer of the said Bill of Exchange, as against all others whom it dott or may concern, for exchanges, as against all others whom it dott or may concern, for exchanges,

re-exchanges, damages, costs charges, and interests, suffered or to be suffered for want of acceptance of said Bill of Exchange.

This done in the presence of R. Doe and J. Doe, witnesses hereunto required.

D. Brown.

### ACT OF HONOR.

Afterward, on the same day, month, and year, before me, said Notary, and witnesses, personally came and appeared, Mr. L. May, of this city, merchant, who declared he was ready, and would accept the said Bill of Exchange, now under Protest, for the honor and on account of D. Brand, the drawer, holding him, the said drawer thereof, and all others concerned, always obligated to him, the said appearer, for reimbursement in due form of law.

D. Brown.

From a Merchant to two of his Clerks, to transact and manage commercial concerns.

I herein appoint my two clerks, D. Boud and D. Brown, of the city of New-Orleans, to be my lawful attornies, jointly, for me, and in my name, to transact and manage all business; also, to open all letters of correspondence, to sign and answer the same, and to draw, accept, and pay all Bills of Exchange or other Promissory Notes; all monies to receive and acquittances to give for the same; also to draw and sign all orders and drafts for payment of money, on bankers, or other persons, where I, the said C. Doe, shall keep cash; and further also, to settle, balance, and arrange all books and accounts, and generally to do every act, matter and thing, as the nature of the business of me, the said C. Doe, may require.

I do hereby ratify, &c.

### A GENERAL RELEASE.

Know all men by these presents, That I, D. Bond, of Hartford, for, and in consideration of the sum of \$5,000, paid to me by D. Brown, of Hartford, have remised, released, and forever discharged, and by these presents, do, for me, my heirs, executors, and administrators, remise, release, and forever discharge said D. Brown, his heirs, executors, and administrators, of and from all manner of action, and cause of action, suits or debts against said D. Brown, which I ever had, or now have, from the beginning of the world, to the day of the date of these presents.

In witness, &c.

### GENERAL POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS, That I. D. Bond, of Hartford, do hereby ordain, constitute, and appoint D. Brown, of Hartford, my true and lawful attorney for me, and in my name to demand, sue for, recover, and receive all sums of money and debts due me, and all claims and demands against all persons whatever, and to give sufficient acquittances therefor, and to adjust, settle, or compound all debts, or demands, and to institute proper suits for the recovery thereof, and the same to pursue to final judgment and execution; and I hereby ratify and confirm what my said attorney shall lawfully do in the premises.

In witness whereof, I have hereunto set my hand and seal, this 9th, day of March, in the year of our Lord, 1838. D. BOND.

### LEASE.

KNOW ALL MEN BY THESE PRESENTS, That I, W. H. I., of H., in the State of Connecticut, have demised and leased to A. H., of said town and State, a room in the Union-Buildings, for a store, for the term of two years from the first day of April, 1838, for the yearly rent of \$500, payable in yearly payments.

To have and to hold the same for the term of two years from the first day of April, 1838, and to return the same in the condition in which it was received, the usual wear and tear of the premises only excepted; the lessor reserving to himself the right of re-entry on the premises aforesaid, provided said A. H. shall fail to pay the yearly rent within fifteen days after the same shall have become due. Said A. H. further agrees that he will admit no other person into said room, except with the consent of the lessor.

Dated at Hartford, this first day of April, 1838.

W. H. L.

W. H. I.
The lessor and the lessee should each hold a similar copy of a

The lessor and the lessee should each hold a similar copy of a lease. The copy which the lessor holds should have the signature of the lessee, and vice versa.

### BILL OF SALE OF PERSONAL CHATTELS.

KNOW ALL MEN BY THESE PRESENTS, That I, D. Brown, of Hartford, for the consideration of 8700, received to my full satisfaction, of D. Bond, of Hackney, do bargain, sell, and convey to the said D. Bond, the several articles of furniture and property, contained in the schedule hereunto annexed.

- 1 dozen chairs.
- 1 sofa.
- 1 black horse and 4 cows, being all that I have.

To HAYE AND TO HOLD the said goods, &cc. unto him, the said D. Bond, forever, without any claim or demand from any person under me. And I, the said D. Brown, do for myself, my executors and administrators, covenant and agree with the said D. Bond, to warrant and defend to him the said goods, &c. against all persons whatever, and which goods I have delivered the possession to the said D. Bond.

In witness whereof, &c.

[To avoid the claim of creditors, there must be actual delivery of possession of personal property, by the vender to the vendee.]

### FORM OF A BOND.

KNOW ALL MEN BY THESE PRESENTS, That I, D. Bond, of the city of Hartford, and State of Connecticut, am holden and firmly bound to D. Brown, of the aforesaid City and State, in the sum of \$8,000, to be paid to said D. Brown, or his certain atterncy, executors, administrators or assigns; for which payment well and truly made, I bind myself, my heirs, executors and administrators, firmly by these presents.

Signed, in the city of Hartford, Connecticut, March 4th, 1838, with my hand, and sealed with my seal.

D. Bond.

#### MORTGAGE OF PERSONAL PROPERTY

KNOW ALL MEN BY THESE PRESENTS, That I, D. Bond, of the town of Harford, in the State of Connecticut, for, and in consideration of the sum of 88000, lawful money of the United-States, to me in hand well and truly paid, by D. Brown of New-Haven, in the State of Connecticut, the receipt whereof I do hereby acknowledge, have granted, bargained, and sold, and by these presents do grant, bargain, and sell, unto said D. Brown, all be goods and chattels mentioned in the schedule here under-written.

To nave and to note, all, and singular, the said goods and chattles, unto the said D. Brown, his executors, administrators, and nassigns, forever. And I, the said D. Brown, dec, that I have a full right to sell and convey the said goods and chattles to the said D. Brown, and that I will warrant and defend the same, and every part there-of, against the legal claims of all persons whomosover. Provided, nevertheless, that if I, the said D. Boond, my executors, administrators, or assigns, or any of them, do, and shall well and truly pay, or cause to be paid, unto the said D. Brown, the full sum of \$8,000, of lawful money of the United-States, with lawful interest for the same, on, or before the 16th of January, 1839, then these presents shall be null and void; otherwise, to remain in full force and effect.

In witness whereof, &c.

## A COMMON INDENTURE.

THIS INDENTURE WITNESSETH, That I, John D. Bond, of Hartford, do put myself apprentice to John Miller, to learn his art, and with him (after the manner of an apprentice) to serve

from the twentieth of May, in the year eighteen hundred and thirty-eight, unto the full end and term of seven years from thence next following, to be fully complete and ended: during which term the said apprentice his said master faithfully shall serve, his secrets keen, his lawful commands every where gladly do. He shall do no damage to his said master, nor see it be done by others, but that he to his power shall prevent or forthwith give warning to his said master of the same. He shall not waste his goods, nor lend to any his master's goods unlawfully. He shall not play at cards, dice, tables, or any other unlawful games, whereby his said master may have any loss. He shall not haunt taverns or play-houses, nor absent himself from his master's service, day nor night, unlawfully. But in all things, as a faithful apprentice. he shall behave himself towards his master and his, during the said term. And the said John Miller, his said apprentice in the same art of printing, which he useth, by the best means that he can, shall teach or instruct, or cause to be taught or instructed; finding unto his said apprentice sufficient meat, drink, clothing, lodging, and all other necessaries, during the said term. And to the true performance of all and each of the said covenants and agreements, either of the said parties bindeth himself unto the other by these presents.

In WITNESS WHEREOF, The parties aforesaid have hereunto set their hands and seals, the sixth day of May, one thousand eight hundred and thirty-eight.

JOHN D. BOND. JOHN MILLER.

In the presence of SAMUEL JONES.
PAUL JONES.

I consent to the covenant of my son with John Miller, as above.

LEMUEL BOND.

# PART II.

## BOOK-KEEPING

RY

#### DOUBLE, ENTRY.

In Single-Entry, each sum is posted only once in the Ledger but in Double-Entry, each sum is posted twice; that is, at two er more accounts. Hence, Double-Entry. In a large and complicated business, the latter method is the only one that can be adopted with safety. More writing is required in Double-Entry, and, in some cases, more Books. Generally, the Books used are the Waste, or Day-Book, Journal, Ledger, Cash-Book, Bill-Book, Invoice-Book, Account-Current-Book, and Letter-Dook, the forms and designs of which are given in the first part of this work.

Some writers on the science of accounts have evidently given themselves much trouble in attempting to classify accounts under distinct heads; others would abridge the process of posting, &c. By such attempts, the principles of equilibrium, as connected with Book-keeping have been folishly mystifed; and consequently many young men who have begun the study of Bookkeeping, have been baffled, discouraged, and have abandoned their purposes.

One writer recommends, in posting, to leave out the prepositions "To" and "By;" another the interlining of the Ledger, posting only the date and the sum, and another the interlining and date also.

If such advice were designed for those already in the business of keeping accounts, they could better judge of the expediency of following it, but when elementary books are written on that plan, the evil may be great.

It is difficult to write on the subject of accounts, without using the technical language of Book-keeping. In a given case, Morchandise is made Dr. "To Cash;" and although we know there is no obligation resting between the two accounts themselves, we make use of this language because it more readily conveys to the mind of the learner the principles involved. We consider the accounts of Stock, Merchandise, Real-Estate, &c., responsible for the money, goods, &c. which have been disposed of, on their account. When I pay John Olmsted money on account, I make his account, in the Ledger, Dr. "To Cash", so 'if I pay cash for real-estate, I make Real-Estate Dr. "To Cash," or if I pay cash for merchandise, I make the Merchandise-Account Dr. "To Cash." The same is true of Insurance, Commission, Shipping, Shimments, &c.

When John Olmsted pays me cash on account, I credit the account of John Olmsted, "By Cash," so when Merchandise produces me cash, on sales, I credit the Merchandise-Account "By Cash." If my Ships, Shipments, Real-Estate, &c., produce me money, notes, merchandise, either for freight, sale, or returns, I credit the said account, "By Cash" or "Bills Receivable," as the case may be. Thus we nominally make one account Dr. to another, and Cr. one by another.

If I give John King, an order on John Olmsted & Co., for \$10 worth of goods, I should make King's account in my Ledger, Dr. "To John Olmsted & Co." and make John Olmsted & Co's. account, Cr. "By John King."

Again, if I sell a person goods and take in payment his note, I make the Bills Receivable-Account, in the Ledger, Dr. "TO Merchandise," and make the Merchandise-Account, Cr. "By Bills Receivable." Therefore, it will be seen that we treat all the accounts in the Ledger and in journalizing, menting as Personal Accounts, making each nominally accountable for what it receives and crediting it for what it prociese under that head. I would say, "Mr. Merchandise, I shall Dr. you to the cash I have paid for you," (when I have bought merchandise for cash,) "and I will Cr. you for the cash) I have sold merchandise for cash.) Thus I would say to Mr. Jones, Mr. Insurance, Mr. Bills Pavable, &c.

Note.—The examples given on the revent following pures may be written out and journalized on size, Mack-band, es think-book, in a form similar to those on Day-Bank and Journal, best issue, Bank-band, es think-book, in a form similar to those on Day-Bank and Journal, best issue, Bookle-Batry. This course may be pursoned by the teacher, till the meaning to transactions or transactions of the different properties of the prope

If, in beginning business, or at the time of opening the accounts in the Ledger, John Jones owes me \$300, on account, I make his account Dr. to 300, and the Stock-account Cr. By \$300.

If I owe John James 8600, on account, at the same time, I make his account Cr. By 8600, and make the Stock-account Dr. To 8600; so if I have Cash 83,000, I make in like manner, the Cash-account Dr. 83,000 and Stock Cr.; and the same with Merchandise, Bills Receivable, & Merchandise, Bills Receivable, & Merchandise, Polis Receivable, & Merchandise, Polis Receivable, & Merchandise, Bills Receivable, & Merchandise, Polis Receivable, & Merchandise, & Merchand

## ON THE-CASH BOOK,

Enter the Cash in hand at opening the Book, and every sum you afterward receive, on the Dr. or left hand page, beginning each entry with the preposition "To," and on the Cr. or right hand page, every sum you pag, with the preposition "Bg." The difference of the two sides is placed on the smaller side, "Bg Balance," monthly; and that Balance is carried to the Dr. side, "To Balance," showing how much noney you have to commence the next month with. See Cash-Book, Sci 340.

The Day-Book is sometimes kept in the narrative style, (which is almost indispensable in teaching) and sometimes in the Journal form of Dr. and Cr., and on it are recorded all the transactions which are not more properly entered on the subsidiary Books. This Book first gives a statement of the Merchant's affairs at the opening of the Books, defining the items of property which he commenced business with, and also whatever he may owe at that time—as,

 If I begin business with Cash \$3,000, Merchandise worth \$6,000; James Brown owing me \$2,000, Notes against individuals \$2,000, and Real-Estate worth \$5,000, I would make a statement as follows. viz:

Cash, . . . Dr. \$3,000 Merchandise, . Dr. 6,000 Innes Brown Dr. 2,000 Stee

James Brown, . Dr. 2,000 Stock is Cr. \$18,000. Bills Receivable, Dr. 2,000

Real-Estate, . Dr. 5,000

If I owe at the same time \$1,000 to John King, and \$2,000 on Notes, the statement is as follows:

Stock is Dr. \$3 000 { John King is Cr. \$1,000 Bills Payable is Cr. 2,000

The above statement having been made, the following examples may be regarded as uniformly true in the process of business. In case the Day-Book is kept in the Journal form, the following will show the method in which the entries are made, wanting the date and some explanatory remarks.

late and some explanatory remarks.
3. When I buy Merchandise on my note for \$1,000 Merchandise is Dr., and Bills Payable are Cr \$1,000
4. When I buy Merchandise for Cash, \$2,000 Merchandise is Dr., and Cash is Cr 2,000
<ol> <li>When I buy Merchandise on trust, \$3,000</li> <li>Merchandise is Dr., and the Person who trusted me is Cr. 3,000</li> </ol>
6. When I sell Merchandise for a note, \$1,000 Bills Receivable are Dr., and Merchandise is Cr 1,000
7. When I sell Merchandise for Cash, \$8,000 Cash is Dr., and Merchandise is Cr 8,000
8. When I sell Merchandise on trust, \$3,000 The person trusted, is Dr., and Merchandise is Cr 3,000
9. When Mdse. is shipped on adventure, \$2,000 Adventure (place named,) is Dr., and Mdse. is Cr 2,000
<ol> <li>When I give W. B. Bond my note for his, (or exchange notes,) for \$400</li> <li>Bills Receivable are Dr., and Bills Payable are Cr 400</li> </ol>
11 When I get my own note discounted at the Bank or elsewhere, and allow a discount of \$20, the whole amount of the note being \$2,000
Cash is Dr., and Bills Payable are Cr 1,980  And Profit and Loss is Dr., and Bills Payable are Cr 20
12. When I give my note for Insurance, \$50 Insurance is Dr., and Bills Payable are Cr 50
13. When I give my note for Real-Estate, 2,000 Real-Estate is Dr., and Bills Payable are Cr 2,000
14 When I give Cash to repair our church, \$400 Private account is Dr. and Cash is Cr

When John Brown becomes insolvent, owing me \$1,000, and I agree to take \$50 on the \$100, he giving me the balance in Cash, Cash is Dr., and John Brown is Cr
16. When John King, consigns goods to me, to sell, and I pay for Custom-House duties, my note, \$100, and charges in cash, \$50, King's Consignment is Dr., and Gash is Cr. 100 And King's Consignment is Dr., and Cash is Cr. 50
17. When I purchase ship Mary, for Cash, \$8,000, Ship Mary is Dr., and Cash is Cr 8,000
18. When I expend money for clothing or family stores, \$100  Private Account is Dr., and Cash is Cr 100
<ol> <li>When I give my note on ac't. to J. Brown, \$1,000,</li> <li>John Brown is Dr., and Bills Payable are Cr 1,000</li> </ol>

Suppose the owner of the Books, Samuel Hall, purchases goods with Samuel Colt, each one half, amounting to \$9,450, and S. Hall takes the goods into his store to sell, each to share equally in the gain or loss. Hall pays for his half in his note, at 60 days, for \$3,000. and cash. \$1,725.

the sales, and the remainder is divided with the other party, in proportion to his invest.

The account is then closed like the Genral Merchandise-Account.

Hall first sells to S. Porter a part of the above goods for cash, amounting to \$1,732 50.

Sold J. Brown, on his note at 30 days, Merchandise, Co. A., amounting to \$3,000.

When the account was closed, there were on hand goods un-

sold, amounting to \$8,000. Commission on sales, \$236 62.

Hall opens an account under the head Merchandise, Co. A.,

with other accounts necessary.

1st. Hall debited the Account, Co. A., with half the expense,

that is, what he paid, \$4,725.

2nd. He credits the account for the two sales, \$4,732 50.

2nd. He debits the account for the two sales, \$4,132 50.

3rd. He debits the account for the commission, \$236 62, on sales.

4th. He credits the account of S. Colt, for one half the now difference of the two sides, \$2,247 94.

5th. He debits the account, Co. A., \$2,247 94, which he credited Colt's account with.

6th. He credits the account for his half the goods unsold, \$4,000, Colt taking his half away, or leaving it for farther sales.

7th. He debits the account to Profit and Loss for the now difference of the two sides, which is Hall's gain on the speculation. The following are the Ledger-entries which would necessarily grow out of such a Company-Account:

#### ON OPENING BOOKS.

The process of opening a set of Books, being considered peculiarly difficult, I propose to answer some of the questions which are frequently saked, and anticipate others which may suggest themselves to the mind of the learner. There is not, however, so much mystery in this part of Book-keeping, as many apprehend, and I attribute the many interrogations on this point to the fact that no writer on the science of Accounts, has definitely enough pointed out the why and wherefore. It may be well to remark in the outset, that the Stock-account personifies the merchant who owns the Books. Ho says, I, (Stock) credit myself with all that I carry into business, and debit myself with all that I owe.

Some writers on this subject, recommend that each partner should first be debited "To Stock," for the sums which they respectively subscribe, and Stock be credited "By Sundries," for the aggregate subscriptions. And when the subscriptions are paid, each partner is credited "By Cash," for the amount he pays in, (or any goods which he may furnish) and debit the Cash (or Merchandise) account to the partner who pays it.

The better mode is to open the Ledger-accounts as if there were one person in trade, and enter the respective investments to the credit of each partner's account in the *Private-Ledger*. See Private-Ledger, 3d Set.

When it is necessary to open a new account, it need not be done with ink at the time, but in penell mark. The posting may be done under such heads till some favorable opportunity, when they may all be written out neatly in ink.

#### EXAMPLE 1

Suppose you have, on commencing business, a capital of \$13-000, of which \$5,000 is in Merchandise, and \$8,000 in Cash, how would you open your Books?

Ans. By crediting Stock BySundries, \$13,000, and debiting Cash ToStock, \$8,000 and debiting Merchandise ToStock, \$5,000. Thus.

Dr.	STOCK.	Cr.
	By Sundries,	13,000 00
Dr.	Cash.	Cr.
	To Stock,	
Dr.	Merchandise.	Cr.
	To Streck,	

EXAMPLE II.

Suppose you have the above capital, (as in example 1st.,) but owe on your notes \$2,000, how would you open your Books?

Ans. In the same manner (as in example 1st.,) except you will debit Stock To Bills Payable, \$2,000, and credit Bills Payable By Stock, \$2,000.

Thus,

Dr.	Stock.	Cr.
To	Bills Psyshle, 2,000 00 By Sundries,	13,000 00
Dr.	Cash.	Cr.
То	Stock,   8,000 (0)	
Dr.	Merchandise.	Cr.
То	Stock,   5,000 00	
Dr.	BILLS PAYABLE.	Cr.
	By Stock,	2,000 00

#### EXAMPLE III.

Suppose you assume Example 2nd, with an addition of the capital, \$3,000 of Connecticut River Bank-Stock, and also a debt which you owe to William H. Imlay, \$1,000, how would you open your Books?

Ans. As in Example 2nd, except you debit Connecticut River Bank-Stock, "To Stock," \$3,000; debit Stock "To Sundries," \$3,000; credit Wm. H. Imlay "By Stock," \$1,000; and credit Stock "By Sundries," \$16,000.

Dr.	STOCK.	Cr.
	To Sundries,   3,000 00   By Sundries,	16,000 00
Dr.	Cash.	Cr.
	To Stock,   8,000 (0)	
Dr.	Merchandise.	Cr.
	To Stock,	
Dr.	BILLS PAYABLE.	Cr.
	By Stock,	2,000 00
Dr.	Connecticut River Bank-Stock.	Cr.
Dute.	To Stock,	Dellare. Cente.
Dr.	WILLIAM H. IMLAY	Cr.
	By Stock,	1,000 00

#### EXAMPLE IV.

Suppose a man commence business under the following circumstances, viz: He having no capital, borrows on his notes, \$20,000, of which he expends \$10,000 for Merchandise, and the remainder is cash. How does he open his Books?

Ans. He debits Cash "To Stock," \$10,000; debits Merchandise
"To Stock," \$10,000, and Stock "To Bills payable," \$20,000;
credits Stock "By Sundries," \$20,000, and credits Bills Payable
"By Stock," \$20,000.

Dr.	STOCK.	Cr.
To Bills Pay	yahle,   26,000 00   By Sundries,	20,000 00
Dr.	Cash.	Cr.
To Stock,		
Dr.	Merchandise.	Cr.
To Stock,	10,000 00	
Dr.	BILLS PAYABLE.	Cr.
-	By Stock,	20,000 00

Here is an equal amount on the Dr. and Cr. side of the Stock account, showing you that the merchant owes as much as he car

ries into business, and his Cash and Merchandise-accounts show in what his property is, and Bills Payable-account shows where the debit is.

#### EXAMPLE V.

Suppose a merchant commence business under the following circumstances, viz: He has a capital of \$20,000, \$6,000 of which is in Merchandise, which he bought of A. King & Co., New-York, at six months credit; his store, valued at \$8,000, for which he has given his note, and the balance, \$6,000, is in cash. How would he onen his Books ?

Ans. He debits Stock, \$14,000; Cash, \$6,000; Real-Estate, \$8,000; and Merchandise, \$6,000. Credits Stock, \$20,000; Bills Payable, \$8,000, and A. King & Co. \$6,000.

Dr.	STOCK.	Cr.
To Sundries, .	.   14,000 00   By Sundries, .	20,000 00
Dr.	Сави.	Cr.
To Stock,	6,000 oo	
Dr.	REAL-ESTATE.	Cr.
To Stock,		
Dr.	BILLS PAYABLE.	Cr.
	By Stock,	8,000 00

Dr.	-	MERCHANDISE	s.`	Cr.
	To Stock,	6.000 00		
Dr.		A. King & C	Co.	Cr.
			By Stock,	6,000 00

EXAMPLE VI.

If three men commence a business as follows, viz: A, brings into the business \$8,000, in Merchandise; B, \$5,000 in Cash, and C, \$7,000 in notes which he holds against sundry individuals— How would they open their Books? Thus,

	•	
Dr.	Stock.	Cr.
	By Sundries,	. 20,000 00
Dr.	Merchandise.	Cr.
To Stack,		
Dr.	Савн.	Cr.
To Stock,		

Dr.	BILLS RECEIVABLE.	Cr.
To Stock, .	7,000 00	

Taking Examples 6th, of A, B, and C, how would they open their Private-Ledger?

Ans. They would debit Stock "To Sundries," \$20,000, and credit A, "By Stock," \$8,000; credit B, "By Stock," \$5,000; credit C, "By Stock," \$7,000.

Dr.	STOCK.	Cr.
	To Sundries,   20,000 (0)	
Dr.	. А.	Cr.
	By Stock,	8,000 00
Dr.	В.	Cr.
	By Stock,	5 000 00
Dr.	C.	Cr.
-	By Stock,	7,000 00

### INTRODUCTORY EXERCISE.

When the learner has committed to memory or carefully studied the foregoing explanations of the Ledger-accounts, he should be practiced in examples like the following.

The Journal-entries and dates are here omitted, that the process of opening, posting, and closing, or making equal several accounts, may be, as far as possible, simplified and brought within the comprehension of the merest tyro. Thus—

- 1st. If you begin business with a capital of \$8,000, in cash, what accounts in the Ledger are affected?
- Ans. Cash is debited "To Stock," \$8,000, and Stock is Cr. "By Cash," \$8,000.
- 2nd. If you buy Merchandisc on your note for \$4,000, what accounts will be affected?
- Ans. Merchandise is Dr. "To Bills Payable," \$4,000, and Bills Payable Cr. "By Merchandise," \$4,000.
- 3rd. If you sell Merchandise to Brown & Parsons, on account, \$3,000, what accounts are affected? Ans. Brown & Parsons are Dr. "To Merchandise," \$3,000,
- and Merchandise Cr. "By Brown & Parsons," \$3,000.

  4th. If you buy Merchandise for cash, \$2,000, what accounts
- are affected?

  Ans. Merchandise is Dr. "To Cash," \$2,000, and Cash is Cr.
- "By Merchandise," \$2,000.

  5th. If you sell Savage & Stockbridge, Merchandise for
- \$4,000, on their note, at 60 days, what accounts are affected?

  Ans. Bills Receivable is Dr. "To Merchandise," \$4,000, and

  Merchandise Cr. "By Bills Receivable," \$4,000.
- 6th. If the Connecticut River Bank discounts the above bill, \$4,000, paying you cash, \$3,960, and retaining the discount, \$40, what accounts are affected?

Note—The student may be required to write out and journalize the above transactions on a black-board, state, or paper, in the same form that they would be recorded and journalized, in actual Ans. Cash is Dr. "To Bills Receivable," \$3,960, and Profit and Loss are Dr. "To Bills Receivable," for the discount, \$40, and Bills Receivable is Cr. "By Sundries." \$4,000.

On this and the following page, will be seen all the foregoing sums carried to their respective accounts, and each account is closed, exhibiting a Ledger in miniature.

The credit side of the Mcrchandise-account is the greatest by one thousand dollars, consequently, you have realized \$1,000 move than the expense, which is transferred to the credit of Profit and Loss. You lost, on the discount of Savage & Stockbridge's note, \$810, which is carried to Dr. of Profit and Loss-account. The difference of the two sides of Profit and Loss is \$900, which, being the net gain on the business, is carried to the Cr. side of the Stock-account. The net gain, \$900, added to \$8,000, which you were worth when the accounts were opened, shows your present worth to be \$8,900. The Bahance-Account shows on the Dr. side that you have \$9,900 in cash, \$8,000 in a debt owing you by Brown & Parsons, and on the Cr. side \$4,000, which you owe on a note, which subtracted from \$12,900, leaves \$8,900 vour present property.

This example and explanation may appear puerile to the skillful accountant, yet the beginner will find in them much that is instructive, and if carefully examined, will impart to him more information than he could obtain from any other source in the same time.

## REMARKS ON BOOKS, SET I.

Books, Set 1st., contains a record of such transactions as must occur in almost every Merchant's and Tradesman's business.

The Cash and other transactions are recorded together on the Day-Book, so that the whole business of the Merchant appears on this book, and of course, each entry is journalized before nosting.

Although the Merchant generally keeps a Gash-Book, it is in many cases omitted, as the omission is thought to render the process of making the Journal-entries and posting more simple than to have two books contain the same business. As it is the design of the author to render this set of books as suipple as may be, and to illustrate clearly the principles involved in Double-Entry, everything not absolutely necessary is omitted. Each individual, who copies, journalizes, posts, and takes the Balance-Sheet, should consider the business his own—what he starts his business with the capital there specified—that he considers each record there made, as made by himself and not pass over it till he fully comprehends it—that he takes the Balance-Sheet as if he were collecting the items of his own property, at the close of his business, or at any given period.

The Day-Book shows, in an historical form, a statement of the Merchant's property and debts in beginning business, and all the transactions supposed to occur in one month. All the brevity which is consistent with perspicuity, is exhibited in the Day-Book. Every transaction recorded on the Day-Book has deduced from it two or more Journal-entries, which are placed in the Dr. and Or. columns of the Journal. From the Journal, each of the entries is posted to its respective account in the Ledger, which is the final transfer, and where all of the same kind may be found together.

#### TO OPEN AND CLOSE A SET OF BOOKS

- 1st. Construct the books on which the original entries are
- 2nd. From the books of original entry, make your Journal; and in case your Journal is arranged like Journal Set I., add the Dr. and Cr. columns, as in that book.
  - 3rd. Open an account on your Ledger with the name of every person and thing which appears on the Journal.
  - 4th. Post each sum from your Journal, (as in Set I.) or from your Journal and Cash-Book (as in Set III.) to your Ledger.
- 5th. Compare the sums on Journal with those transferred to the Ledger, to see that they are correct.
- 6th. Take the Trial-Balance according to direction on page
- 7th. Transfer the amount of Private-Account, (as in Set II.) or the Partners-Accounts (as in Set III.) to the Dr. side of the Stock-Account.
- Sth. Take the Profit and Loss-sheet, according to direction on pages 121, the Dr. column of which must show the losses and the Cr. side the gains on the business.
  - 9th. Take the Balance-sheet, per direction on page 124, the Dr. side of which must show your effects, and the Cr. side your liabilities.
  - Equilibrate the accounts in the Ledger, per direction on page 128.
  - Bring down the balance, as in Set III., or make a new Ledger, (see page 38.)

The foregoing directions may aid some who understand the above steps, without knowing the order in which they come.

Humphrey, James,	5

The Merchant has a separate book, called an Alphabet, for entering the name of each account which he opens on his Ledger. One or more pages are devoted to the names which begin with the letter A, one or more for those which begin with B, &c.

With the name and page of each account on this book, the Bookkeeper, after Journalizing, may page-mark each item on the Journal, so that in posting he may turn from the Journal to the account in the Ledger, without looking to the Alphabet to find the page.

Where a large business is done at home and abroad, the trader may find it to his advantage to have several Ledgers; as one for the city, one for the western, and one for the southern trade.

## QUESTIONS ON A TRIAL-BALANCE.

What is the design of the Trial-Balance?

It is taken to ascertain whether the amounts on the Journal have been correctly posted on the Ledger. You know according to the principles of equilibrium, that the amount of every transaction in trade has two or more distinct entries in the Ledger; that is, there must be as many dollars and cents posted on the Dr. side of the Ledger as there are on the Cr. side.

For example; if you buy of John Olmsted & Co., for cash, merchandise to the value of \$500, you post \$500 at the Dr. column of the Merchandise-account, and also \$500 at the Cr. column of the Cash-Account.

Again, if you buy of Hills & Bolter, merchandise, amounting to 8600, one half for cash and the other half on account, you would post 8600, at the Dr. side of Merchandise; and 8300 at the Cr. of Cash, and 8300 at the Cr. of Hills & Bolter's account, in the Ledger. Thus, you perceive in either case, you have an equal amount on each side of the Ledger. Hence, after a month's or year's posting, if you add the Dr. side of each account in the Ledger (in pencil-marks) and the Cr. side of each account, the sum of the Dr. entries will be equal to the sum of the Cr. entries, if the Books have been correctly poster.

I now comprehend entirely the design and process of finding these amounts, but what shall I do with them when obtained?

You will take a sheet of paper, ruled with double money-columns and write on the left hand of it the name of each account which is opened on the Ledger and then you will place the fooiing of each account against its name on this sheet, the sum of the Drs. in the Dr. column, and the sum of the Crs. in the Cr. column of this sheet.

Suppose the Dr. and Cr. columns of the Trial-Balance sheet do not foot up alike?

The error of course must be ferreted out. It may be in the adding on the Ledger, or it may be that you have taken wrong amounts from the Journal. The mistake in any case, should be found, if it be no more than one cent.

The balance should be taken once in the week or month, depending upon the extent of the business. At the close of each week or month, the footing may be placed at the side of the money column, in pencil-mark and remain there. These footings may be entered on the Trial-Balance sheet for the next month, or left, at the option of the Book-keeper. For instance, you take the Trial-Balance for January and carry the footing to the side (in pencil-marks,) of the money-column of each account. At the close of February, you may include merely the transactions of February, or the transactions of January, and February Jaco

The better way is, however, to include only the amounts that have been posted since the last Trial-Balance was taken, iill the books are to be balanced, when the whole should be included. Many are in the practice of copying these balances into a book made expressly for that purpose.

## QUERIES ON A PROFIT AND LOSS-SHEET.

Having ascertained by my Trial-Balance that the footings of the two sides of the Ledger are equal, how shall I now proceed? Ans. I suppose that you have already taken account of Stock.

Ans. I suppose that you have already taken account of Stock, that is, you have fixed some definite value (which value should be no more or less than the property can be sold for) on the merchandise under its various heads, as Cotton, Flour, Sugar; also, Ships, Real-Estate, Bank, and other Stocks (if such accounts be opened in your Ledger) and make a memorandum of such valuations on the Day-Book:

For example; if you have at the balancing of your Books, Merchandise unsold, valued at \$8,000; Real-Estate at \$4,000; Cotton at \$8,000; Merchandise in Company \$6,000; and a Shipat \$14,000, you will place on the Cr. side of Merchandise \$3,000, Cr. side of Edeal-Estate \$4,000, Cr. side of Goton \$8,000, Merchandise in Company (if you own half of it) \$8,000, &c., writing on the line with each amount thus carried in "By Balance." In a small business, however, you may have but one of the afore-mentioned accounts, and that Merchandise; for most of those items might come under that general blead.

Why is it necessary to carry in these Balances, in order to find the gain or loss?

You know that the Dr. side of the Merchandise-account shows how much you have paid for merchandise purchased, and the Cr side of the same account how much you have received for sales of Merchandise; and consequently if you purchase \$4,000 worth, and sell \$2,000, the Dr. side of the account would be \$2,000 the largest, which would indicate a loss of \$2,000, that would not be true.

But if you value what you have unsold, at a price for which you could sell it, say, \$2,500, and carry the same to the Cr. side of the Merchandise-Account, the difference in the footings, \$500, would be a gain.

These Balances being carried to the Cr. of their respective accounts, how shall I proceed?

Take a sheet of paper ruled like that for the Trial-Balance, and write at the head of it, " Froit and Loss-sheet." Then add the two sides of the general Merchandise-Account, and it the Dr. side be the largest, the difference is a loss and you will curry it to the Dr. side of the Proit and Loss-sheet. But if the Cr. side be the largest, the difference is a gain and you will place it on the Cr. side of the Profit and Loss-sheet. Proceed in the same mararer with the Ships, Charges, Cotton, Real-Estate, Insurance, Inzerest, Profit and Loss, Commission, Bank, and other Stocks, Flour, Adventures or Shipments, and Merchandise Co. accounts.

I have obtained the difference of all the above accounts and added up the two sides of the Profit and Loss-sheet; what is the next step?

Take the difference between the two columns which, being the net gain or loss on your whole business, you will carry to the Stock-Account. If the Dr. side be the largest you will carry the difference to the Dr. side of the Stock-Account because it is a loss; but if the Cr. side be the largest, carry the difference (in pencil-marks) which is a gain, to the Cr. side of the Stock-Account, and add it to the amount already there. You now subtract the amount (if any) on the Dr. of the Stock-Account, from the amount on the Cr. side of the same account; and this difference will show you your net property, which of course must be equal to the difference between the two sides of the Balance-sheet, when this sheet shall have been mode out.

Is there any thing further to be done with the Profit and Losssheet? Not till you have taken the Balance-Sheet and ascertained that you have all the items correct; for, if there be a mistake, it should be corrected on this sheet rather than on the book. The Profit and Loss-sheet, after proved to be correct, may be transferred, verbatim, to the Profit and Loss-account in the Ledger.

DIRECTIONS

#### TO MAKE A BALANCE-SHEET.

Having completed the Profit and Loss-sheet, and carried the difference between the Dr. and Cr. columns to the Stock-Account, what is the next step?

Ans. You will make the Balance-sheet; that is, write down in detail, all the items of property which you possess, which may be merchandise, cash, notes, debts, real-estate, ships, &c., and also your liabilities, which may be notes and personal debts, which you one.

What is the process of ascertaining that fact?

Ans. You will take a sheet of paper ruled like the Profit and Loss-sheet, Cr. at the right, and Dr. at the left-hand side, and

1st. Add the Dr. and Cr. columns of the Stock-Account, and place the difference between the two, if the Cr. side be the largest, on the Cr. column of the Balance-sheet, and, if the Dr. side be the largest, carry the difference to the Dr. side of the Balance-sheet

2nd. Add the Dr. and Cr. columns of Cash, and place the difference of the two on the Dr. column of the Balance-sheet.

3rd. Add the Dr. and Cr. columns of Bills Receivable and place the difference on the Dr. column of the Balance-sheet. 4th. Add the Dr. and Cr. columns of Bills Payable, and place the difference of the two on the Cr. column of the Balance-sheet.

5th. Add the Dr. and Cr. columns of each Person's Account, and when the Dr. column is the largest, carry the difference between the two, to the Dr. column of the Balance-sheet; but if the Cr. column be the largest, carry the difference of the two to the Cr. column of the Balance-sheet.

What do these balances show or mean?

The balance, that is, the difference between the Dr. and Cr. columns of Stock, shows you your net property.

The balance of Cash, shows how much cash you have received more than you have paid away, and consequently how much you have on hand.

The balance of Bills Receivable shows the value of the notes which you hold unpaid against other individuals.

The balance of Bills Payable is the value of the unpaid notes which other individuals hold against you.

The balance of a Person's Account, when the Dr. column is the largest, is what that person owes you; if the Cr. column be the largest, you owe that person the balance.

Have I nothing to do with the balances of Charges, Interest, Commission, Insurance, Profit and Loss, and Expense-Accounts, in making the Balance-sheet?

You will pass over those accounts, as they show you merely gains and losses, under their respective heads, and net any thing which can be called property. Indeed, all the items which are posted at those Accounts, might be posted at the Profit and Loss-Account only, but, as many individuals wish to know how much they pay and receive under those heads respectively, they open separate accounts.

Have I any thing to do with the Merchandise-Account?

Pass over it, if your merchandise has all been sold; but if a part of it remains unsold, the value of it will already have been transferred from the Memorandum to the Cr. side of Merchandise-Account "By Balames," this balance you will transfer to the Dr. side of the Balance-sheet.

If, of the merchandise which has been bought, none has been sold, the value of the whole, which should go to make up the ag-

gregate of property, in the merchant's possession, may be carried to the Dr. column of the Balance-sheet.

Precisely the same course must be pursued with the accounts of Cotton, Flour, Real-Estate, Bank and other Stocks, Ships, and

Adventures abroad, if such accounts are opened in your Ledger.

What is to be done with the Private-Account, if I keep one?

The footing of that account was carried to the Dr. side of

Stock, and the same amount is to be brought back to the Cr. of Private-Account.

Having now all your effects, that is, all your property, on the Dr., and all your liabilities, that is, all the debts you owe, together with the balance of Stock, on the Cr. side of Balance-sheet, add the Dr. and Cr. column, and the one should equal the other.

To what should the difference between the Dr. and Cr. column of the Balance-sheet be equal, not including the balance of Stock which already appears in the Cr. column?

It should be equal to the difference between the Dr. and Cr. column of the Stock-Account.

Do you mean that the *net gain*, (the Balance of Profit and Loss,) should be added to the amount carried into business, *be-fore* you make the foregoing comparison?

That would be necessary, inasmuch as you wish to find the value of your property at the present time.

If the difference between the two sides of Stock is equal to the difference between the two sides of the Balance-sheet, what does it prove?

It proves that you actually show as much property after your debts shall have been paid, as your Stock-Account represents you to be worth. You will remember that the Stock-Account merely shows you the value of your property, without showing in what it consists; while the Balance-sheet shows of what it is composed.

I suppose that the Balance-sheet affords data for opening accounts in a new Ledger?

Yes. You may take the Balance-sheet and open on the Ledger an Account with each person and thing, whose name appears on that sheet, and place the same amount which is found on the Balance-sheet, to its respective account in the new Ledger, "By, or To Balance," from Led. A. or B. When there is room on the old Ledger to post another year's transactions, it may be used

again, but if it is necessary that you open any account on a new Ledger, it is better that they all appear there, as such an arrangement saves much trouble in referring from one Ledger to another.

Should this Balance-sheet be copied to the Ledger?

It is sometimes copied, and always should be, as that book would be imperfect without it.

How often are merchant's books usually balanced?

Once in the year, and usually in January, or when business is dull.

. Is the Trial-Balance of any use in making out the Balance-sheet?  $\dot{\cdot}$ 

The footing of the Dr. and Cr. side of each account in the Ledger, will of course appear in the Trial-Balance, which may in most cases be made use of, instead of adding those accounts again.

#### DIRECTIONS

#### TO EQUILIBRATE LEDGER-ACCOUNTS.

You have now taken the difference between the Dr. and Cr. column of each account in the Ledger, where any differences exist, and placed that difference either on the Profit and Loss-sheet, or on the Balance-sheet, according to the rules laid down for those transfers; how will you next proceed?

I will place such an amount on the smallest side of each account as will make the Dr. and Cr. column equal, when footed.

Are you obliged to foot these accounts again in order to find the differences of the Dr. and Cr. of them?

No. For the differences are now on the Balance, and Profit and Loss-sheets. I will therefore first examine the Profit and Loss-sheet, and if I find the difference between the Dr. and Cr. column of Merchandise on the Cr. side of the Profit and Loss-sheets, I will transfer that sum to the Dr. column of Merchandise, saying, "To Profit and Loss." But if that difference be on the Dr. column of the Profit and Loss-sheet, I will transfer it to the Cr. column of Merchandise, saying, "By Profit and Loss."

I will proceed in the same manner, as with Merchandise, Charges, Insurance, Interest, Expense, Commission, Cotton, Ships, Adventures, Real-Estate, Bank and other Stocks, and Merchandise Company-Accounts, if I have the difference between the Dr. and Cr. side on the Profit and Loss-sheet.

How will you equilibrate Profit and Loss?

I will place the difference on the smaller side, saying, "To, or By Stock," as the case may be.

I will next take the Balance-sheet, and if I find in the Cr. column of it, the difference between the Dr. and Cr. side of the Stock-Account, I will transfer that sum to the Dr. side of Stock, saying, "To Balance." But if the difference between the Dr. and Cr side of that Account be on the Dr. side of the Balance-sheet, I will transfer the same to the Cr. side of Stock, saying, "By Balance."

I will proceed in the same manner with all Personal Accounts, and Adventures, where there have been no sales.

What further will you do with those accounts?

The Dr. and Cr. column of each account will now foot alike, so I will strike a single line under each column, and after adding them up, I will strike a double line, signifying that the Accounts are equilibrated.

## REMARKS ON BOOKS, SET II

Some accountants, especially those who have been in the practice of Journalizing their Books daily, (as Set 1st,) seriously object to the method (as Set 3rd.) This plan, say they, not only compels the Book-keeper to perform, in a short time, the whole labor of Journalizing and Posting the month's transactions, which he might have done at his leisure; but also creates the necessity of examining the Day-Book, in order to make up the bill of an individual, who wishes to settle the same before the monthly Journalizing and Posting shall have been completed. This is an objection, and the only valid one that has been offered to the above method. Then there is an objection also to the lumbersome and tedious process of Journalizing and Posting daily, (that is, each transaction by itself.) as that occupies more room on the Journal and much more on the Ledger, than the monthly plan. To obviate these evils, I have projected and written out Books, Set II., which are Journalized once in a week. This plan, a medium between the daily and monthly method, is new, and is recommended by the author to the merchant, particularly, as affording the greatest possible correctness in keeping accounts. The retailer usually makes a general balance of his cash on Saturday night, and this seems the most appropriate time for bringing up the Books. Let the Book-keeper write on the Journal, the title, " Sundries Dr. To Merchandise," and under this title write the name of each person who has bought Merchandise on account during the past week, affixing the amount purchased on the same line. If any individual has made several purchases in the week, the amounts should be entered on the Journal successively, on the inner column, and the footing entered long, so instead of entering each purchase separately to the Ledger, you enter all his purchases for the week to his account in one sum.

Having the amounts of all the sales now placed in the outer column, they are to be footed, and the sum of them to be entered at the Cr. side of Merchandise-account, "By Sundries," and each person made Dr. "To Merchandise," for the amount of his purchases during the past week.

The Book-keeper next writes the title, "Merchandise Dr. to Sundries," and places under it each purchase, as above, in order that the sum of the purchases may go to the Dr. side of Merchandise-account "To Sundries."

Under the above titles may be Journalized all merchandise bought and sold, except what may have been bought and sold for cash or notes, and that must be arranged according to the rules given for Journalizing in this Set.

The cash transactions of Set 2nd. are entered on the Day-Book, so that the Cash-Book may be dispensed with, or the cash transactions may be entered on the Cash-Book and not on the Day-Book. As a general thing, the Cash-Book should be used; as it brings an important part of the business records by itself, and lessens the number of entries in the Day-Book. The form of a Cash-Book, suitable for a retail business, is given with this Set. The Principal Cash-Book is rendered less voluminous by keeping a Petty Cash-Book, and in a retail business especially, it is recommended. The amount of cash in hand in the morning is entered on the Dr. side, and every sum received through the day, except what is received on sales of merchandise. The amount received during the day for merchandise is counted at night, and also entered on the Dr. side of the Cash-Book. All sums paid out during the day should be entered on the Cr. side, when the difference of the two sides will be the amount of cash on hand. This balance is carried to the Dr. side in the morning, and the cash balanced as on the previous day, till the last day of the week, when the balance should be transferred to the Dr. side of the Principal Cash-Book. If any cash has been received or paid on account, the entries should be made accordingly, on the Principal Cash-Book.

### RULES FOR JOURNALIZING.

The Journal (Set 2,) contains a weekly abstract of all the transactions recorded in the Cash-Book, Day-Book, Bill-Book, Invoice-Book, &c., arranged under distinct heads: as,

Under the head, "Cash Dr. To Sundries," enter on the line with each sum of cash received through the week, the name of the person or thing on whose account it was received.

Under the head, "Sundries Dr. To Cash," enter on the line with each sum paid out through the week, the name of the person or thing on whose account it was paid. (See Journal, Set 2, Under the head "Merchandise Dr. to Sundries," enter on the same line with each sum which Merchandise has cost through the week, the name of the person who trusted you, or of the thing that was given as an equivalent for the Merchandise, (excepting Cash.)

Under the head, "Sundries Dr. TO Merchandise," enter on the same line with each sum that Merchandise has been sold for through the week, the name of the person whom you trusted, or the thing which was received as an equivalent for the Merchandise, (excenting Cash.)

### REMARKS ON BOOKS, SET III,

The Third Set of Books is a record of a Wholesale Dry-Goods Business, conducted by three Partners, for four months, at which time the Books are balanced, the Balance-Sheet taken, showing in what their property consists, and the Private-Ledger showing each partner's share of the property.

The business is supposed to continue in the same hands; accordingly the Books or Accounts are again opened, which consists merely in bringing down the Balance of each account to its opposite side.

When the folio becomes so much filled, as to be insufficient for another year's entries, a new account must be opened on another folio, and the Balance of the old account transferred to that, "By or To Balance." See Ledger B, Set 2, Single-Entry.

The plan of Journalizing monthly, which is pursued in this Set of Books, has many advantages over the daily method, and is now adopted in many respectable mercantile houses. Instead of posting the amount of each purchase of Merchandise separately, the same of all the purchases through the month, is posted, occupying, of course, but one line in the Ledger. This lessens the liability to mistake, in posting, adding, &c., beaties cocupying only one line in the Ledger, while the other method would take one for every purchase or sale.

On the debit side of the Cash-Book, are entered all sums of Cash carried into business, or which are afterward received; and on the credit side are entered all sums parted with.

In buying or selling goods for ready money, the first, or original entry containing particulars, is made on some of the subsidiary Books, and the second, or Counter-Entry at the same time, in the Cash-Book.

In paying money on importations, as Consignments or Adventure, the first entry containing particulars, is made in a subsidiary Book, and then entered on the Cash-Book by the title of the account on which the sum was paid, with reference to the page of the book on which the first entry was made. The Cash-Book may be balanced daily, weekly, or monthly.

The Balances at the close of each month, are made use of to regulate the Cash-Book, consequently nothing is done with them in Journalizing.

#### CO-PARTNERSHIP.

Is when two or more persons unite together and agree to partigate in the Profit and Loss, according to their respective shares in the joint capital in trade. Individuals desirous of forming such a partnership shall make, and severally sign a certificate which shall contain.

- 1st. The name of the firm under which such a partnership shall be conducted.
- 2nd. The general nature of the business intended to be transacted.
- 3rd. The names of all the general and special partners interested therein, and their respective places of residence.
- 4th. The amount of capital which each special partner shall have contributed to the common stock.
- 5th. The period at which the partnership is to commence, and the time when it shall terminate.

This Indenture, made between Stedman W. Hanks, Nicholas Harris, and Alfred Watkinson, witnesseth: That the said S. W. Hanks, N. Harris, and A. Watkinson, have, in order to better improve their estates, agreed to become co-partners and jointraders, in transacting a Wholesale Dry-Goods and Grocery Business, under the firm of Haxris, Hantis & Co., in which they invest 820,000, in the following renorotions, viz.

S.	W. Hanks,				\$8,000
N.	Harris, .				7,000
A.	Watkinson,				
					20.000

The said S. W. Hanks, N. Harris, and A. Watkinson, further agree, that each partner shall share in the gain or loss arising from their business, in proportion to their respective amounts invested in the joint capital.

Moreover, That this co-partnership shall commence on the first day of June, in the year 1837, and continue till the last day of September of the same year, when the Balance-sheet shall be taken, and a division of the property made, as above stated.

```
Signed, Hartford, May 8th., 1837, by

STEDMAN W. HANKS,

NICHOLAS HARRIS,

ALFRED WATKINSON.

If will be each that the principles here involved in journalizing are the same as those of Journal—Set 1. This method of journalizing daily, is the most joulicious, where the Journal is a separate book; but where the Day-Book and Journal are the same book, with the Day-Book on one follow, and the Journal or on the principle depoted in Set 1st, is recommended.

#### DIRECTIONS

## FOR POSTING FROM THE DAILY JOURNAL

All the sums recorded on the Day and Cash-Books being now arranged on the Dr. and Cr. sides of the Journal, incoording to runtes given for Journalizing) are next to be posted to the Ledger. The name of every person and thing transferred to the Journal, must be written in a large, round hand, in the Ledger, each occupying one half or a whole page.

The Stock-Account should stand first, and the Profit and Loss-Account, with all others which are kept to ascertain what is made or lost on the business, may be opened on successive folios. The Personal-Accounts may also occupy continuous pages, and the Balance-Account may be the last in the Lodge.

At the Dr. side of any account now opened, post every sum of the same title from the Dr. side of the Journal; and at the Cr. of any account in the Ledger, post every sum from the Cr. side of the Journal of the same title as that account.

As you post each sum at the Dr. side of its respective account, write on the same line with the sum, the title of the account that is credited for the same amount; that is, the corresponding Journal entry.

#### EXAMPLE.

See, on Journal, page 1, Merchandise on the Dr., and A. M. Collins & Sons on the Cr., \$2,286 44. Next, see those accounts in the Ledger, and on the Dr. side of the Merchandise-Account will be found "To A. M. Collins & Sons," \$2,286 44; and on the Cr. side of A. M. Collins and Sons' account, will be found "By Merchandise," \$2,286 40;

Again: on the same page of Journal, see Bills Receivable on the Dr., and Merchandise on the Cr. side. Next, see those accounts in the Ledger, and on the Dr. side of Bills Receivable, will be found, "To Merchandise," \$1,800; and on the Cr. side of Merchandise, will be found, "By Bills Receivable," \$1,800.

Hence the rule for posting :

"The thing received is debited To the thing given, or To the person who has trusted you.

The thing parted with is credited By the thing received, or By the person whom you have trusted."

When there are two or more Cr. entries and one Dr. entry of the same transaction on the Journal, the account bearing the same title in the Ledger, is made Dr. "To Sundries," and each of the Cr. entries has its account credited By the account now debited, for its respective sum.

#### EXAMPLE.

See, on page 1, the Journal-entries of June 14, and then examine the accounts, Consignment to New-Orleans, Merchandise, Charges, and Insurance. Consignment to New-Orleans is Dr. "To Sundries," \$4,120 50; Merchandise is Cr. "By Consignment to New-Orleans." \$4,000; Charges, "By Consignment to New-Orleans," \$40 50; Insurance, "By Consignment to New-Orleans," \$60.

When there is one Cr. and two or more Dr. entries of the same transaction on the Journal, the Cr. entry has its account in the Ledger, Cr. "By Sundries," and the Dr. entries have their accounts made Dr. "To the account now credited."

#### EXAMPLE.

See Journal-entries of September 23rd, and their accounts in the Ledger.

When there are on the Journal, two or more Cr. and Dr. entries of the same transaction, each has its respective account credited and debited "By, and To Sundries."

BILLS.

On this Book are entered all the Bills received or issued, giving date, amount, time to run, &c.

When I draw on another person, or he gives me his note, on account, I debit Bills Receivable, "To the Person;" that is, the giver or acceptor, as the case may be.

If I indorse that Bill to a person, on account, the Person is made Dr. "To Bills Receivable."

If I dispose of it for cash, or otherwise, the thing received as an equivalent is made Dr. "To Bills Receivable," and Bills Receivable are credited by the account debited.

When I accept a person's draft on me, or give him my note, (which is virtually the same thing,) the person is made Dr. "To Bills Payable." When I give it otherwise than on account, the thing received as an equivalent is Dr. "To Bills Payable." When I redeem my bill, Bills Payable are made Dr. to the thing' given as an equivalent.

\* When I say "thing given as an equivalent," (as I have made use of this term frequently,) I mean Cash, Merchandise, Real-Estate, Shipping, Bills, &c.

This Book is to be examined frequently, in order to learn when the Bills become mature, that they may be paid.

Bills payable are those Bills for which the owner of the Books is responsible, when due.

Bills Receivable are those bills for which other persons are responsible to the owner of the Books, when due-Bills are usually drawn in the currency of the country where

they are to be paid.

When notes are lodged in a Bank for collection, the Bank is made Dr. "To Bills Receivable."

In journalizing the foregoing Day-Book, remember that

The Dr. side of the Cash-Account, shows your receipts, and

The Cr. side of the Cash-Account shows your payments of cash. The Dr. side of the Merchandise-Account, shows your cost, and

The Dr. side of the Merchandise-Account, shows your cost, and The Cr. side of the Merchandise-Account, shows your sales of Merchandise.

The Dr. side of a Person's-Account, shows what he owes you, and The Cr. side of a Person's-Account, shows what he has paid you. The Dr. side of the Bills Receivable-Account, shows other men's notes received.

The Cr. side of the Bills Receivable-Account, shows their notes parted with.

The Dr. side of the Bills Payable-Account, shows your notes which you redeem.

The C<sub>T</sub>. side of the Bills Payable-Account, shows the notes which you issue.

### MANNER OF KEEPING BANK-BOOKS.

The number of Books kept in a Bank must depend much upon the amount of business transacted. The following are the Books commonly used, viz:

1st. The Journal, or Day-Book, kept by the Cashier.

The committee appointed to receive the first or all the installments, are made Dr. to the same, (say \$120,000,) and when they pay over the same to the Board of Directors or President, they are credited for the amount.

When the Stock is subscribed for,

Sundries are Dr. to Stock in Co.

The Stock-Account in the Ledger must be credited \$120,000, and (suppose four subscribers investing \$30,000 each, in shares,) each subscriber is made Dr. \$30,000.

When the Subscriptions, or Installments are paid,

Stock in Co. is Dr. to Sundries.

Stock in Co. is Dr. \$120,000, and each subscriber is credited \$30,000. Cash is then made Dr. "To Sundries," \$120,000, and each subscriber is credited "By Cash," \$30,000.

2nd. The Expense-Book gives a record of all the expenses, as the salaries of the President, Cashier, clerks, &c. These expenses are entered by the Cashier, every six months, when a dividend is declared by the Board of Directors. The account is then closed by Profit and Loss.

3rd. The Deposite-Book, in which there is one column for the name of the depositors, one for the amounts deposited, and one for each of the Book-keepers. Each Book-keeper has the names allotted to him alphabetically, and he removes the amounts coming under his letters into his columns, to prevent confusion in posting. As,

### DEPOSITE-BOOK

			From A to G. From G to O. From O to Z.
July	4 Horatso Alden,	12,000	12,000
**	9 William H. Imbay, ,	13,030	13,600
		41,000	0 19 10 11

- 4th. The Transfer-Book, on which are recorded the shares transferred from one individual to another, and which is closed some days before the dividend is declared, during which time no transfer can be made.
- 5th. The Statement-Book. This Book the Cashier lays before the Directors twice in the week, (more or less, as the custom may be,) at which time they meet to discount the notes offered, and to ascertain the state of the funds from this Book. As,

## Dr. Statement-Book. Cr.

Specie in venits,							-4	47,000 00	Notes in circulation,			-	-	-		40,00:100
Bills discounted.								142,060 20	Capital Stock							120,000/66

	_		_	_	_		-			_	_	-		_	_	

6th. The Stock-Ledger, on which every stockholder's account is opened and credited for his shares of Stock, and debited for his transfers.

When notes are discounted by the Bank, debit Bills Receivable "To Cash," for the net amount paid by the Bank.

When the Bills are paid or redeemed, make Cash Dr. To Bills Receivable, for the sum paid by the Bank and To Discount for the amount of discount on the note.

When the Bank loans an Individual money, on Interest, The individual is Dr. "To Cash;" and when he pays the

The individual is Dr. "To Cash;" and when he pays the original sum and interest, Cash is made Dr. to the Individual and to Interest.

When a transfer of shares is made, the seller is made Dr. to the buyer for the amount of the transfer.

If a dissolution of the company take place, each stockholder is made Dr. "To Cash," for the amount of shares refunded.

If any stockholder forfeits his shares by non-payment of the remainder, his account must be closed To Profit and Loss, and he is no longer considered a stockholder.

When the Dividend is declared, debit Profit and Loss "To Sundries," for the amount of the dividend, and credit each stockholder for his share of it "By Profit and Loss."

When the Dividend is paid, debit each stockholder "To Cash" for the amount of his share, and credit Cash "By Sundries," for the whole dividend paid.

When the Cash-Account is balanced, debit the Balance-Account "To Cash," for the stockholder's capital, and credit the Cash-Account "By Balance," for the same.

When the Stockholder's-Accounts are balanced, debit each Stockholder's-Account for this amount of shares, "To Balance," and credit the Balance-Account, "By Sundries," for the whole capital.

## A BANK MAY BE,

- 1st. A Bank of deposite, like the Savings Banks, where they receive deposites at a low rate of interest, and lend the money to individuals on real-estate for security, without issuing any paper currency.
- 2nd. A Bank of deposite and discount, where moneys are recived in deposite, usually without interest, and where notes are discounted at the risk of the Banking Company,—The deposites in some Banks are so great, that with a small capital, the Directors can discount all the good paper which is offered.
- 3rd. A Bank of deposite, discount, and circulation, at which moneys are received in deposite, notes discounted, as above stated, and which issues the capital invested, or more, in paper currency.—The Company are permitted by the acts of incorporation, to issue a given amount of their notes on a given amount of buillion, or coins of gold or silver.

Stocks are property owned by government or individuals, in moneyed institutions, roads, bridges, manufactories, &c. When the shares sell above their original cost, they are said to be above par, and when they sell for less, they are said to be below par.

The British Stocks are, the three per cent. consolidated Annuities, produced by about £400,000,000, sterling, formed in part by the consolidation of several stocks, bearing interest at 3 per cent. When the term consols, is used indefinitely, in speaking of stocks, it has reference to these annuities.

Five per cent. Irish Annuities, are produced by about £2,000, 000 sterling, formed by loans, for the use of Ireland, before the Union.

Stock of the Bank of England, amounts to £12,000,000, sterling, from which the company have accommodated the government with various loans, and carry on the banking business, purchase bullion, &c. The profits of the company are £1,200,000 sterling, per annum.

India Stock forms the trading capital of the East-India Company. The stock is about £6,000,000, producing a dividend of 10 1-2 per cent., per annum.

Bank Long Annuities; so called, from the annual payments being from their origin, made payable at the Bank, and from their being granted for a longer time than other terminable annuities. These annuities extend to the beginning of the year 1860, and the annual payments are £1,100,000, sterilor.

Exchequer Bills, are issued for different hundreds or thousands of pounds, and bear an interest 2 1-2 per cent. per diem., froin the day of date, till the time they are advertised to be paid.

Navy Five per cent. Annuities; produced from about £50,000, 000 of stock, partly formed on Navy Bills, converted in 1784 into stock, bearing interest at 5 per cent.

Omnium, is a term denoting the different stocks formed by a loan, while any part of same remains unpaid.

Scrip is a term given to each of the receipts of the Omnium when they are sold separately.

Navy Bills are merely bills of exchange, drawn at 90 days date, and are given by the Commissioners of the Navy Department for supplies, and the interest upon these amounts to 3 per cent. per diem.

# PART III.

### REMARKS ON THE FOLLOWING TABLES.

The Interest Tables, on the three following pages, show the principel at the head of the page, and the days and menths in a column in the centre of the page. If you would find the interest on \$20 for 63 days, look for the dollars at the head of the page, under which, and against 63, in the day column, you find 21 cents. If for \$500, for 4 menths, you find, under \$500, and on the parallel with 4 months, \$10 to be the interest requires interests.

These tables are, of course, limited in their application, occupying, as they do, only three pages; yet so full, as in many cases to be very useful.

The author would respectfully invite those interested to examine his Interest Tables at six per cent. They will be found as full as any in print; so constructed as to bring the price very low; accompanied with a new method of equating time, and much matter useful to the business-man.

Thirry days in th September, (Save February, alona,) April, Jone, and November; Which hash but swensy-eight, All the rest have thirty-one, "When the years can be divided by 4 without a remainder, it is Long-Year, and has 500 days.													

lat. To find the number of days from the lat, of January to the lat, of January to the lat, of January in printed, full you come to July, and you find 18%, which are the find. To find the number of days from the lat, of May to the lat, of Cother:—Fellow the hard-printed lines on which May is printed, (if) you come under October, and you will full 150 days better the contract lines on which May is printed, (if) you come under October, and you will full 150 days to the lat.

the intervenient time.

Sect. So if you would find the number of days between the fith. of May, and the 9th. of Orjober, you would pursue the same names correct as in case Out.; for it is evident, that there are the same name time to be such as the same name time to be such as the same are some the left, to left is cold to some north, so the same for in marker mently, at these name from the left, to left is cold as some north, as the same name.

440. To find the number of days from the left, of Marrito to the Eith. of Number of the left, of Marrito the left, of Such to the left, of Marrito the left, of Marrito the left, of Such to the left, of Marrito the left, of Marrito

let, of March to the let. of November, will be seen, are No days, to which add the Edding, and you have 527 days.

Thus, you will always in such cases, first the time between the given time of one mently to the same day in another mently, and add or subtract as may be must convenient.

## EQUATING TIME OF PAYMENTS.

What is meant by equating payments !

It is to find the time at which several dobts due at different periods of time, may be apply a several dobts due at different periods of time, may be discount on the sums 'overdue, may cancel the discount on the sums 'not yet due; that is, so that neither party shall lose any in-

Is it common that the equated or averaged time of payment is required to be found in actual business?

Such cases are constantly occurring in Banks, and all Mercantile establishments of any importance.

In Banks, time is equated principally on notes, when an individual would give

one note for several due at different times, or redeem several such notes for cash.

In the Counting-House, time is equated on Notes, Accounts, Accounts-Current, &c.

#### EXAMPLE I.

I bought goods of Olmsted & Thacher, on account, as follows: What is the equated time of payment?

July 4th., \$50 25 " 18th., 25 60×14 days = 358 40 Aug. 26th., 75 00×53 " = 3,975 00 Sept. 4th., 60 30×62 " = 3,738 60

Oct. 9th., 40 13×97 " = 5,892 61

Amount of the debt., 251 28 251 111,964 61/47,2 nearly 48 days.

#### RULE I.

1st. Multiply each sum (excepting the first sum,) into the time intervening between if and the earliest date, and add the products together.
2nd. Divide the sam of the products a rising from the foregoing multiplication, by

the whose debt.

The quotient arising from the above division, being days or months, (as the case may be stated, in days or months,) added to the carlical date given, shows the equated time of payment.

#### EXPLANATION OF EXAMPLE 1.

48 days from July 4th., gives the equated time Aug. 21st.

Pays.

From July 4th. to July 18th., are 14×25 60, as above.
From July 4th. to Aug. 26th., are 53×75 00, as above.

From July 4th. to Sept. 4th., are 62×60 30, as above. From July 4th. to Oct. 9th., are 97×40 13, as above.

It will be seen that we count from the first date, continually finding the days intervening between July 4th. and each successive date, foreard, making no use of the first sum excest adding it with the other amounts for a divisor.

\*\* Occodec." The sums overdue are those which (if not for the agreement of the parties to equate the payment,) would have been raid before the equated time.

†\* Not yet Dar." The sums not yet dar, are those which (if not fir the agreement of the parties to equate the payment) would have been paid offer the equate the payment) would have been paid offer the equated the payment) would have been paid offer the equated the paid.

to equate the payment, would have seen pain spect too equated time.

If some than half a day we call it a whole day; but if the fraction is less than half, we call it neight.

28.

T

#### PROOF OF EXAMPLE I.

From July 4th. till Aug. 21st., (or medium time) 48 × 50 25 = 2,412 00 From July 18th. till Aug. 21st., (or medium time) 34 × 25 69 = 870 46 From Aug. 21st. (or medium time) 13 4 × 25 69 = 870 46 From Aug. 21st. (or medium time) 13 4 × 25 69 = 375 90 .

From Aug. £1st. (of medium time) till Aug. £6th.,  $5 \times 75.00 = 375.00$  } From Aug. £1st. (or medium time) till Sept. 4th.  $14 \times 60.30 = 844.20$  } 3,185.57 From Aug. £1st. (or medium time) till Oct. 9th.  $40 \times 40.31 = 1.966.37$  }

#### BULE TO PROVE BOULTIONS.

1st. Find the number of days intervening between the first date and the equated time, and multiply that number of days into the sum from which you counted. Procced thus with each sum whose date is cartier than the equated time, and add their products together.

2nd. Find the number of days intervening between the equated time and the first date effer that time, and multiply that number of days into the sum to which you counted. Proceed these with each sum whose date is later than the time of equation, and add the products together. The sam of the products effor the equated time.

When there is a fraction arising from the distion above, there will necessarily be one in the sum of the products. See last case. As every countin must be proved in the same manner as the last, I shall not be

As every equation must be proved in the same manner as the last, I shall not be so minute in explaining the remaining cases. It is recommended to every person who works equation of payments, not to call them right till proved so.

#### EXAMPLE II.

Bought of S. Spencer & Co., goods, as follows, viz : and we wish to pay the same on the 1st. July. Which party must allow interest !

June 12th, due \$700 × 0= 0000 " 30th., " 500 × 18= 9000 July 15th., " 800 × 33=25400 " 28th., " 600 × 46=27600 Aug. 8th., " 400 × 57=22800

3,000 3,000)S5809(23, 3-5 days.

25800 24000

 $\frac{600)\frac{1800}{3000} = \frac{3}{3}}{3000} = \frac{3}{100}$  28 3-5 days added to June 12th, gives the equated time, July, 16 3-5 S. Spen-

cer & Co. must allow us interest on \$3,000, for 10 3-5 days.

PROOF OF EXAMPLE II.

Baye.

From July 10-3-5, till June 201th, or equated time, are 29-3-5-\$700-20020 } 25,200

From July 10-3-5, till June 201th, or equated time, are 10-3-5-\$00 5300 \$25,200

## 

EXAMPLE III.

We bought of A. M. Collins & Sons, goods on account, as follows, viz: What is the equated time for payment?

May 4th., \$800, due in 60 days. May 16th., 400, due in 20 days. June 8th., 700, due in 120 days. June 24th., 600, due in 30 days. This must first be transposed before it can be equated, as,

The 400 would become due June 5th.,  $$400 \times 0 =$ The 800 would become due July 3rd.,  $$600 \times 28 = 22400$ The 600 would become due July 24th.,  $$600 \times 49 = 29400$ 

The 700 would become due Oct. 9th., 700×123=86100 82.500 137900/55 4-25

\$2,500 )137900(55 4-25 days. 12500 12900 12500

100) 400(=4

The quotient, 55, 4-25 days, added to June 5th., brings the equated time forward to July 30 4-25 days.

## PROOF OF EXAMPLE III.

From June 5th, to equated time, July 30 4-25, are 55 4-25 × 8400 = 22064 ; From July 3cd., to equated time, July 30 4-25, are 27 4-25 × 800 = 21728 ; From July 24th, to equated time, July 30 4-25, are 6 4-25 × 600 = 3696 ; From genated time on July 30 21-25, till Oct. 6th, are 67, 21-25 × 8700 = 47488.

## EXAMPLE IV.

What is the equated time for paying the following bill? New-York, April 6th., 1389.

#### H. A. CHITTENDEN,

Bought of Carrington & Lee,

Jan. 2nd, 200 yds. black doin, at \$3,00, at 6 menths, \$600

20th, 200 w linen, 775, "4" 150

Feb. 9th, 160 "carpeting, "1,00, now due, 1 150

Mar. 10th, 60 " black sils, "80, at 3 menths, 43

April 4th, 40 "carpeting," 1,25, now due, 5

#### \_

· w.

\$1,008

Note. It will be necessary to transpose the above sums and dates, before the same can be equated; that is, carry each date forward to use time that the sum is due.

## Feb. 9th., \$160

April 4th., 50×54 days= 2700 May 26th., 150×106 "=15900 June 10th., 48×121 "= 5808 July 2nd., 600×143 "=85800

\$1,008 \$1,008)110208(109 days=May 29th.

The quotient, 109 days, counted forward from Feb. 9th., will give the time for paying the whole debt, May 29th., 1839.

#### RULE, II.

When goods are purchased at one date and at a given term of credit, and partial payments have been made before the term of credit expires,

1st. Multiply the whole debit into the given term of credit. 2nd. Multiply each payment made before maturity into the time which has intervened since the purchase.

3cd. Subtract the sum of the products last found, from the product of the whole debt multiplied into the given term of credit.
4th. Divide the remainder by the belance of the debt unpaid, and the quotient will be the number of days or months that the balance of the debt may run from the time of purchase.

#### EXAMPLE V.

```
Bought of Daniel Buck & Co., January 1st., 1836, goods amounting to $2,400.
payable 16 months from date. There were payments made as follows, viz;
  In 4 months × $200 = 800
                                    Whole debt, 2400
  In 8 months × 400 = 3200
                                    Term of Cr.
                                                 16 months.
  In 10 months × 60 = 600
                                               14400
                  660 4600 sum of the products, 2400
                                               38400 product of the whole debt
Whole debt.
                      2,400
                                                      into the whole term.
```

Amount of payments, 660 1740)33800(19,740=1937 months. 1.740 remainder due. 1740 16400 15660

740 The balance, \$1,740, must be paid about the middle of July, 1837, by equation. PHI.E 111

When two individuals have an account one against the other, of different amounts, and the sums of each are due at different periods, to find the equated time of pay-

Multiply the number of days between dates, into the smallest amount. 1st. 2nd. Divide the above products by the difference of the two accounts, and the quotient will be the answer. 3rd. If the earliest date is affixed to the largest amount, the quotient is counted ack from the earliest date.

4th. If the latest date be affixed to the largest amount, the quotient is counted EXAMPLE VI.

```
David Watkinson & Co., bought of James Bunce, goods as follows, viz :
                    Days.
```

Due May 1st., \$200 Due May 11th., 800 ×10= 8000 Due May 21st., 600 ×20=12000 Due May 31st., 400 ×30=12000

forward from the last date.

)32000( 2,000 16 days added to May 1st., gives the 2000 equated time May, 17th.

12000 D. Watkinson & Co., owe James Bunce \$2,000, payable, May 17th.

#### EXAMPLE VII.

James Bunce bought goods of D. Watkinson & Co., as follows, viz :

\$1,100, due Aug. 1st., \$1,100 600, due Aug. 31st., 600 ×30=18000 800, due Sept. 10th., 800 ×40=32000

2,500=2500)50000( 20 days added to Aug 1st., gires 5000 the equated sime Aug. 21st. 0000

Hence, James Bunce owes D. Watkinson & Co., \$2,500 on Aug. 21st.

Watkmon & Co. wish the \$2,000 which they owe James Bence, on May 17th, to remain unpaid till the 21st. of August, which will then be canceled by the \$2,500 that Bence will then own them. Bence assents to this proposal, provided the balance of the two accounts, \$600, can remain unpaid till the interest on it \$6500, shall be equal to the interest on the \$2,000, from 17th May till 21st. August. When shall Watkinson & Co. bo in each for the \$500!

The following equation must be worked by Rule 4th., the last two having been worked by Rule 1st., in order to form this equation.

#### EXAMPLE VIII.

384 days added to Aug. 21st., gives the time to pay \$500, Sept. 9th., 1838.

500\192000(384,

PROOF.

From Aug. 21st., 1837, till Sept. 9th., 1838, are 384 days × \$2,500 = 960,000
From May 17th., 1837, till Sept. 9th., 1838, are 480 days × 2,000 = 960,000

## EXAMPLE IX.

By Account-Current with P. A. Brown, he owes me \$2,000, which is due Aug. 21st., 1837, and I owe him \$2,500, due, May 17th., 1837. When shall I pay the balance of the two accounts, (\$500,) that meither party shall receive interest?

Dr. P. A. B. N. H. Dr.
Due Aug. 21st., \$2,000 Due, May 17th., \$2,500
Difference of dates, 96
15000
15000
500 difference of debts.

500)192000(384 days counted back from May 17, gives the equated time April 28th., 1836.

#### PROOF.

From May 17th., 1837, back to April 28th., 1836, are 384 days × 2500 = 96,000 From Aug. 21st., 1838, back to April 28th., 1836, are 480 days × 2000 = 96,000

In this example, Brown is entitled to interest on the amount I owe him, \$2,500, from May 17th: till Aug. 21st., when \$2,000 of it is canceled by what he owes me. Then the balance, \$650, was to have been pais owner clearlier, \$4,000 and 12th its interest should be equal to the interest on \$2,500, from the 17th. of May till the 21st. of Augast.

It is unnecessary to repeat examples, as the foregoing Rules will equate the time on any Bills or Account-Current.

#### EQUATION OF DIVIDENDS.

A. B. & C. invest in trade \$20,000, of which A. invests \$8,000, B. \$7,000, and C. \$5,000. They gain on their business \$3,5800; what is each partners share of the gain.

#### RULE.

Divide the amount of gain by the whole capital and the quotient will be the per cent. gained; multiply the per cent. gained by each one's part of the capital and the quotient will be the share required.

#### OPERATION. \$20,000\ 355800

,	
	17,79 = gain per cent.
17,7,9 = per cent. gained.	17,7,9=per cent. gainer

17,7,9 = per cent. gained. 8,000 = A's investment. 1,245 3 = B's share. 1,245 3 = B's share.

17,7,9=per cent. gained. 1,423 20=A's share. 5.000=C's investment. 1,245 30=B's "

889,5000 = C's share.

3,558 00 = whole gain.

When Time is considered, multiply each one's investment by the time he continues it in true and use the product for his share. Then proceed as in the first case.

889 50=C's "

## LOSS AND GAIN.

When Goods are bought and sold at given prices, to find the per cent. you gain or lose.

RULE.

After subtracting the difference between the buying and the selling price, and adding two cyphers to that difference, divide it by the buying price. The quotient will be the per cent. that is gained or lost.

If I buy goods at 79 cents per yard, and sell them at 93 cents, what do I make per cent.

93 selling price. 79 buving price.

Buying price, 79)1400 00 added to the difference.

Buying piece, 191300 of sancer to the dimerence.

17† Ans. I make 17 cents on each dollar's worth I buy.

If I buy goods at \$3,26 per yard, and sell them at \$3,08, what per cent. do I loss?

3,26 buying price. 3,08 selling price.

Buying price, 3,26)1800 00 added to the difference.

5t Ans. Lose 5 per cent.

When goods are to be sold, and it is advisable to gain or lose a certain per cent.

To gain a certain per cent.

Add the per cent. to be gained to 1,00, and multiply it into the cost price.

If I buy paper at \$4,44 per ream, and wish to sell it so as to make 16 per cent. what must I sell it for per ream?

5,15,04 Ans. \$5 15 per ream.

To lose a certain per cent.

Subtract the per cent. you would lose, from 1,00, and multiply the remainder into
the buying price.

If I buy carpeting at \$1 09 per yard, how much must I sell it for to lose 21 per

109 97,5 per cent. to be lost, subtracted from \$1,00 leaves 97,5.

1,06,275 Ans. 1,06 per yard.

### INTEREST.

#### RULE.

To find interest at 6 per cent. multiply the principal by 1-2 the even number of months, and 1-6 part of the days, (if any.)

What is the interest on \$500, for two years and two months, at 6 per cent. 1

65,00 Ans.

cent 1

What is the amount of a note given Jan. 16th., 1835, and paid Jan. 4th., 1836, at 6 per cent.; principal being \$700?
Years, Months. Days.

1-6 part of the days, 8

\*When the rate is 6 per cent. we get one cent on a dollar every two months; consequently, 6 cents for every 12 months; consequently, 6 cents for 64 months. Hence one half the number of months gives the rate per cent. for any given time.

number of months gives the rate per cent. for any given time.

† The most simple and expeditions method of finding time intervening between given dates, is
the one pursued above, which is morely Compound Subtraction.

feet high?

Short way of finding Interest for any small number of Days.—Multiply the whole number of days into the principal, and divide the product by 60.

#### EXAMPLE

What is the interest on \$4 20, for \*77 And what is the interest on \$300, for days at 6 per cent 1 420

This method is adopted by many business men, and, though it is charging 6 per cent, for 360 days instead of 365, it makes no material difference except the sums be large.

#### CUBIC MEASURE.

To find the contents of Cases, Bales, Boxes, and any solid body; Multiply the length into the width, and that product by the height, the last product will be the answer.

#### EXAMPLE.

EXAMPLE.

How many solid feet in a box 4 feet wide, 5 feet long and 6 feet high?

feet 120 = Ans. How many cubic feet in a bale which is 3 feet 6 inches long, 3 feet wide, and 6

6 height.

.\_\_\_\_

feet 63,0 Ans.

How many cubic feet in a box 13 feet long, 12 feet 3 inches wide, and 8 feet 9 inches high!

<sup>\*</sup> If the rate per cent. is 6, we get 1 cent for every 60 days; 5 mills for 20, (that is, one month;) and one mill for every 6 days; consequently, we obtain the certest newser, whether we divide the number of days by a, and make the one sixth part of the days the multiplier, or multiply the whole number of days by a line the principal and divide the predect by 61.

twhen suches are given, as in the above cases, multiply by the decimal of a foot.

The		expression		r 1	inch	is	,093†
44	44	**	44	2	inches	16	.166†
- 66	46	**	**	3	66	66	.25
- 45	46	**	46	4	44	66	,333+
64	**	64	44	5	44	66	,416†
46	44	84	*	6	44	66	,5
64	**	**	44	7	66	66	.583t
66	66	44	**	8	46	66	.666t
**	66	44	66	9	66	64	.75
64	64	44	66	10	66	66	.833†
**	66	66	"	11	66	46	.916t

ANOTHER METHOD OF OPERATION. How many feet in a box which is 8 feet long, 3 feet 4 inches high, and 4 feet 5 inches wide. Feet. In. 3-4=height.

8-0=length. 06.0 4-5=width 11 - 1 - 4

106-8-0

117-9-4 number of solid feet. I first multiply 8 feet into 4 inches which=32+12=2 feet 8 inches.

I next multiply 8 feet into 3 feet which =24 feet +2 feet 8 inches =26 feet 8 menes.

I next multiply the 4 feet 5 inches, the width, into the foregoing product, first multiplying 5 into 8, and dividing the product by 12—then 5 into 26, and dividing the product by 12—then 5 into 26, and dividing the product by 12. Next 4 into 8 and dividing the product by 12. which gives the answer required. To find the number of square feet (length and breadth given) multiply the length

into the breadth. And to find the square yards, divide the above number of feet by 9=1 square yard. How many square yards in a piece of oil cloth carpeting 16 feet long, 11 feet 9

> 11.75 16 7050

1175 9)188,00 = feet square.

20,8 = yards square. In a piece of plastering 14 feet 6 inches, by 7 feet 6 inches.  $14.5 \times 7.5 = 108.75 \div 9 = 12$  vards.

inches wide.

## DRAFT AND TARE.

Draft is an allowance made in the weight of goods for waste. The allowance for draft at the Custom-houses and by merchants is as follows, viz -

On	112					1
Over	112	and	less	than	224	2
66	224	**	**	66	336	. 5
**	336	14	46	44	1120	4
66	1120	66	44	44	2016	7

An allowance for draft is hardly known in any market but in Boston, Mass.

Tare is an allowance made for the weight of the cask, box, or bag, which contains the merchandise. On some articles of merchandise the Tare is fixed by law: on others the tare is

fixed by the custom of merchants and tradesmen; the former is called the legal, and the latter the actual ture. The ad valorem rates of duty, upon goods, wares, and merchandise, (taken at the

Custom-houses, one of which is located at every considerable scaport) are estimated by adding 20 per cent. to the actual cost, if imported from Cape of Good-Hope, or from any other place beyond the same, and 10 per cent, on the actual cost thereof, if imported from any other place or country, including all charges, commissions, outside packages.

#### TARE ALLOWED ON GOODS.

The following is the Tare allowed at the Custom-house, and in buying and selling goods. Almonds, in bags, . 3 per cent. Nails, in casks, . 8 per cent . Allum, " casks, . 12 Nutmegs, 12 \*\* " bags, . ## HARTFORD COMMERCIAL ACADEMY.

### 1621 Main-Street

The design of this School is to qualify young men for the Counting-Room, in a superior and expeditious manner.

The following branches are taught upon the most approved plan, by the lesson or quarter of eleven weeks, viz:

## PENMANSHIP.

Individuals by spending a short time in this School, may acquire a free, flowing, and elegant style of writing.

COMMERCIAL ARITHMETIC.

#### COMMENCIAL ARTHMETIC

Young men who have neglected, or wish to review, the Arithmetic, may, in a short period, acquire simple and expeditious methods of performing the various computations in business.

BOOK-KEEPING BY SINGLE AND DOUBLE-ENTRY.

Individuals now in business, or those who are anticipating it, are here qualified to act as Book-keepers in the most responsible situations. The learner is instructed in the most approved methods of classifying merchants' accounts, and of opening, closing, and reopening books in every variety of business.

## MERCANTILE CORRESPONDENCE.

Pupils in this branch, will be made familiar with composing all the forms of bills, &c.. useful in the routine of business.

N. B. Young men engaged through the day, can take lessons in the evening or morning, in separate apartments. Lessons in the Ancient and Modern languages, and Surveying, will be heard. Merchants' Books written up, and disputed and complicated accounts adjusted.

N. HARRIS, Principal.

References.

GOV. ELLSWORTH, HON. THOMAS DAY, REV. DR. HAWES, THOMAS K. BRACE, ESQS.

### TESTIMONIALS.

The names affixed to the following certificate, are selected from the many which have been received, testifying to the merits of this work.

"Having examined the "System of Practical Book-keeping," by Mr. N. Hausts, Principal of the Harford Commercial Academy, we do not hesitate to recommend it to the patronage of the public, believing it to be better adapted to the purposes of instruction than any work of the kind with which we are acquainted, and containing a more full and complete definition of the various Books and Terms used in mercantile business."
